## Introducing TOTENINJA

Cash wagering for mobile users.

Tote Ninja is an innovative cash wagering terminal delivering the flexibility to place bets from a wide range of mobile devices.

<https://tote.ninja>

## How it Works

Purchase a voucher by making a simple deposit with a Barbados Turf Club cashier at The Garrison Savannah.

<https://tote.ninja>

Go to <https://tote.ninja> on your mobile device and key in the 12 digit pin found on the voucher.

Make sure you retain your paper voucher (it's a handy credit card size when folded) as you'll need this to collect your winnings.

Click 'Play Now' and continue to the terminal where the balance of your deposit is waiting for you to start betting.

Pari-mutuel Wager Placement Guide

Version 1.0

Prepared for: The Barbados Turf Club  
Garrison Savannah  
February 2017

## Introduction

This document sets out the primary pari-mutuel wager types available to customers of The Barbados Turf Club using the Tote Ninja system on both Barbados and available simulcast wagering. The purpose of the document is to demonstrate how such bets can be placed using the terminal and specifically how use of the “Multi” button, integrated into the terminal can assist in placing exotic combination wagers.

## Use of the “Multi” Facility

Certain exotic combination bets are catered for within the terminal as part of the formal design. For example, the ability to Box a Trifecta wager, giving the maximum number of winning permutations for the horses selected in the race, is included as a tick-box option on the Wager Confirmation screen.

There are, however, a multitude of combination wager variations; e.g. Wheels, for which permutations must be within the customer’s control to select and the “Multi” button on the Race Card screen, provided this ability.

Use of the Multi button gives the customer the ability to select multiple horses for the various places within a combination forecast; e.g. a Trifecta or a Superfecta, in order to quickly and easily build and place complex wager of their choosing. The examples shown below demonstrate the steps to create two such exotic combination bets.

A - A trifecta wheel in a 8 horse race, choosing horse 3 as the winning horse with any of the rest of the field in second or third place. ( $1 \times 7 \times 6 = 42$  bets)

B - A Superfecta wheel in a 12 horse race, selecting horse 6 as the winning horse with a combination of 1, 2 or 3 second, 1, 2 or 3 third and any of the rest of the field in fourth place. ( $1 \times 3 \times 2 \times 9 = 54$  bets).
