

APPENDIX 2

CLASSIFICATION OF PROHIBITED SUBSTANCES

1. This classification describes the types of Prohibited Substances and places same in specific categories. The list shall be published on the Club's Notice Board.

CLASS I

Drugs that have the greatest pharmacological potential to affect the racing performance of a horse and which have no accepted medical use in a racehorse. These include substances which are potent stimulants of the Central Nervous System (CNS).

Examples of drugs in this Class include, but are not limited to:

Amphetamines, fentanyl, etorphine, cocaine, morphine, meperidine, opiates, opium derivatives, synthetic opioids, psychoactive drugs.

CLASS II

Drugs that have a high pharmacological potential for affecting the racing performance of a horse. These include:

- (i) substances which are pharmacologically active in altering the consciousness of a horse;
- (ii) substances which are not generally accepted as therapeutic agents in the racing horse; and
- (iii) substances, some of which may have legitimate use in equine medicine but should not be found in the racing horse, such as injectable local anaesthetics.

Groups of drugs in this Class include, but are not limited to:

- (a) Opiate partial agonists, or agonists/antagonists;
- (b) Non-opiate psychotropic drugs, which may have stimulant, depressant, analgesic or neuroleptic effects;
- (c) Miscellaneous drugs which might have a stimulant effect on the CNS;
- (d) Drugs with prominent CNS depressant action;
- (e) Antidepressant and antipsychotic drugs, with or without prominent CNS stimulatory or depressant effects;
- (f) Muscle blocking drugs which have direct neuromuscular blocking action;
- (g) Local anaesthetics which have a reasonable potential for use as nerve blocking agents (except procaine); and
- (h) Snake venom and other biologic substances which may be used as nerve blocking agents.

Examples of drugs in this Class include, but are not limited to:-

Chlorpromazine, Ephedrine, Ketamine and Lidocaine.

CLASS III

Drugs that although having some pharmacological potential of affecting the racing performance of a horse have less potential to affect racing performance than those in Classes I and II.

These include substances that affect the cardiovascular, pulmonary, respiratory and/or autonomic nervous systems (ANS).

Groups of drugs in this Class include, but are not limited to:

- (a) Drugs affecting the ANS which do not have prominent CNS effects, but which do have prominent cardiovascular or respiratory system effects (Bronchodilators are included in this class);
- (b) A local anaesthetic which has nerve blocking potential but also has a high potential for producing urine residue levels from a method of use not related to the anaesthetic effect of the drug (procaine);
- (c) Miscellaneous drugs with mild sedative action, such as the sleep inducing antihistamines;
- (d) Primary vasodilating hypotensive agents; and
- (e) Potent diuretics affecting renal function and body fluid composition.

Examples of drugs in this Class include, but are not limited to:-

Xylazine, Theophylline, Antihistamines, Procaine and Bronchodilators.

CLASS IV

Drugs that may have some pharmacological influence on affecting the racing performance of a horse but have less potential to affect racing performance than those in Class III. These include drugs primarily of therapeutic medications routinely used in race horses.

Groups of drugs in this Class include, but are not limited to:

- (a) Non-opiate drugs which have a mild central analgesic effect;
- (b) Drugs affecting the ANS which do not have prominent CNS, cardiovascular or respiratory effects:
 - (i) Drugs used solely as topical vasoconstrictors or
 - (ii) decongestants.

- (iii) Drugs used as gastrointestinal antispasmodics.
- (iv) Drugs used to void the urinary bladder.
- (v) Drugs with a major effect on CNS vasculature or smooth muscle of visceral organs.
- (c) Antihistamines which do not have a significant CNS depressant effect (This does not include HI blocking agents, which are listed in Class 5).
- (d) Mineralocorticoid drugs;
- (e) Skeletal muscle relaxants;
- (f) Anti-inflammatory drugs – those that may reduce pain as a consequence of their anti-inflammatory actions, which include:
 - (i) Non-Steroidal Anti-inflammatory Drugs (NSAIDs) – aspirin- like drugs;
 - (ii) Corticosteroids (glucocorticoids); and
 - (iii) Miscellaneous anti-inflammatory agents.
- (g) Anabolic and or androgenic steroids and other drugs.
- (h) Less potent diuretics.
- (i) Cardiac glycosides and antiarrhythmics including:
 - (i) Cardiac glycosides;
 - (ii) Antiarrhythmic agents (exclusive of lidocaine, bretylium and propranolol);
 - (iii) Miscellaneous cardiotonic drugs.
- (i) Topical Anaesthetics – agents not available in injectable formulations.
- (k) Antidiarrheal agents; and
- (l) Miscellaneous drugs including:
 - (i) Expectorants with little or no other pharmacological action;
 - (ii) Stomachics; and
 - (iii) Mucolytic agents.

Examples of drugs in this Class include, but are not limited to:-

Isoxsurprine, Flunixin, Dexamethasone.

CLASS V

Drugs that may have some pharmacological influence on affecting the racing performance of a horse but have less potential to affect racing performance than those in Class IV. These include drugs primarily of therapeutic medications routinely used in race horses, but for which concentration limits or threshold levels have been established as well as certain miscellaneous agents.

Groups of drugs in this Class include but are not limited to:

- (a) certain antiallergic drugs;
 - (b) anticoagulant drugs;
 - (c) antifungal agents (excluding griseofluvin, miconazole);
2. Drugs and the categories listed above may from time to time be added to, reclassified or otherwise amended by the Stewards of the Club in consultation with the Veterinary Officer of the Club.
3. Drugs and their respective classifications as contained in the International Federation of Horseracing Authorities (IFHA) and British Horseracing Authority (BHA) for the time being in force shall apply in any case not provided for in this Classification of Prohibited Substances.
4. (a) The Stewards of the Club shall from time to time insofar as same can be ascertained establish certain concentration limits or threshold levels in relation to any Prohibited Substance for the purposes of a positive result of sample.
- (b) The following threshold levels are for the time being hereby established with respect to the following Prohibited Substances. Prohibited Substances below such threshold levels are not actionable:

Prohibited Substance	Threshold Level
1.Total Arsenic	0.3 microgram per millilitre in urine
2.Dimethyl Sulfoxide (DMSO)	15 micrograms per millilitre in urine or 1 microgram per millilitre in plasma
3.Hydrocortisone	1 microgram per millilitre in urine
4.Methoxytyramine	4 micrograms free and conjugated 3 - methoxytyramine per millilitre in urine
5.Salicylic Acid	750 micrograms per millilitre in urine or 6.5 micrograms per millilitre in plasma
6.Theobromine	2 micrograms per millilitre in urine
7.Acepromazine	25 anograms per millilitre in urine
8.Mepivacaine	10 anograms per millilitre in urine
9.Promazine	25 anograms per millilitre in urine
10.Albuterol	1 nanogram per millilitre in urine
11.Atropine	10 anograms per millilitre in urine
12.Benzocaine	50 anograms per millilitre in urine
13.Procaine	10 anograms per millilitre in urine
14.Carbon dioxide	36 millimoles available carbon dioxide per litre in plasma
15.Cobalt	0.1 micrograms (= 100 nanograms) total cobalt per millilitre in urine or 0.025 micrograms (= 25 nanograms) total cobalt per millilitre in plasma

Note: The conjugated substance is the substance that can be liberated from conjugates.

- (c) Official blood test samples shall not contain any of the drug substances or their metabolites or analogues or isomers listed in 7 to 14 above.
- (d) Prohibited substances and their threshold levels listed above may from time to time be added to or otherwise amended by the Stewards of the Club in consultation with the Veterinary Officer of the Club.

5. The following substances are considered to have no effect on the physiology of a racing animal except to improve welfare and nutrition or treat or prevent infections or parasitic infestations, and are hereby declassified with effect from 20th January, 2007, namely:-

Sulphonamides and trimethoprim

Antibiotics:	Penicillins	
Cephalosporins	Chloramphenicol	
Aminoglycosides	Tetracyclines	Nitrofurans
	Metronidazole	
Anthelmintics:	Avermectins	
Benzimidazoles	Piperazines	Pyrantel
	Tetramizole	
Antifungals:	Griseofulvin	
	Miconazole	
Antiparasitic Blood Parasite Preparations:	Imidocarb	
	Quinuronium Sulphate	
Antacids:	Bismuth Sulphate	
	Kaolin, Pectin	
	Aluminum Hydroxide	
Anti Ulcer Preparations:	Ranitidine	
	Cimetidine	
	Omeprazole	

Vitamins:	A, D, E, K, B Vitamins Vit C
Bufotenine:	<ol style="list-style-type: none"> 1. Product not commercially available in any form. 2. It is a metabolite of 3-methyl-N-N dimethyltryptamine, found in reed canary grass (and potentially other food source plants). It may be found in the urine of horses eating this grass and potentially other plant foods), and has been reported as a positive finding. <p>Findings of bufotenine in equine urine should not be considered for regulatory action.</p>
Mucolytic Medications:	e.g. Ambroxol Bromhexine (sputolysin)

6. Anabolic steroid regulations

6.1 Definition

“Anabolic Androgenic Steroids” (AAS) include boldenone, ethylestrenol (in Nitrotain), methandriol, nandrolone, stanozolol and testosterone

AAS also include but are not limited to those listed in the WADA prohibited list such as:

androstenediol; 1-androstenedione; bolandiol; bolasterone; boldione; calusterone; clostebol; danazol; dehydrochloromethyltestosterone; desoxymethyltestosterone; drostanolone; fluoxymesterone; formebolone; furazabol; gestrinone; 4-hydroxytestosterone; mestanolone; mesterolone; mentenolone; methandienone; methasterone; methyldienolone; methyl-1-testosterone; methylnortestosterone; methyltestosterone; metribolone; mibolerone; 19-norandrostenedione; norboletone; norclostebol; norethandrolone; oxabolone; oxandrolone; oxymesterone; oxymetholone; prostanazol; quinbolone; stenbolone; 1-testosterone; tetrahydrogestrinone (THG); trenbolone; and other substances with a similar chemical structure or similar biological effects(s).

Altrenogest (in, for example, Regumate) is still permitted to be used in fillies and mares to regulate their oestrus cycle.

AAS further include other anabolic agents, including but not limited to selective androgen receptor modulators (SARMs); beta – 2 agonists, unless the substance is prescribed by a veterinarian as a bronchodilator at the appropriate dose.

6.1.1 AAS are banned from birth and are not to be administered to a horse in any manner or at anytime in its life. There is 'zero tolerance' on the use of AAS under these Rules and there are no time or therapeutic exemptions of any kind (the AAS ban).

6.1.2 The AAS ban applies to all unregistered juveniles and all registered racehorses (including those which are eligible to be registered under these Rules but have not yet been so registered).

6.2 Regulations, Breaches, Penalties

6.2.1 The possession of an AAS in any form (including oral paste preparations such as Nitrotrain) at any premises used in relation to the stabling training and racing of horses is prohibited and is an offence under these Rules.

6.2.2 Any person who:

- a. administers an AAS;
- b. attempts to administer an AAS;
- c. causes an AAS to be administered; and/or
- d. is a party to the administration of or an attempt to administer, an AAS

to a horse commits an offence and shall be penalized in accordance with these Rules.

6.2.3 Compliance with these regulations will be enforced by the Stewards or other official or officials appointed by them for the purpose through routine race day sampling and by virtue of their powers under Rules 6(i) or 6(j)

and 7(a) of these Rules.

- 6.2.4 Every horse will become the subject of anytime testing regardless of physical location and whose care the horse is under from the time it is first registered with the Barbados Turf Club (BTC) and this remains in place until it is permanently retired from racing.
- 6.2.5 When a sample taken at any time from a horse has tested positive for an AAS the horse is not permitted start in any race for a period of 6 months from the date of the collection of the sample in which an AAS was detected.
- 6.2.6 Any owner, lessee, trainer authorized or registered agent and/or person in charge of a horse registered under these Rules must, when directed by the Stewards or other official appointed by the Stewards produce, or otherwise give full access to, the horse so that the Stewards or other official appointed by the Stewards may take or cause a sample to be taken and analysed to determine whether an AAS is present in the horse's body.
- 6.2.7 For the avoidance of doubt and without limitation regulation 6.2.6 hereof requires an owner, lessee, trainer authorized or registered agent to produce the horse, or otherwise give full access to the horse, even if the horse is:
 - (a) under the care or control of another person; and/or
 - (b) located at the property of another person.
- 6.2.8 Any person who fails to produce, or give full access to, a horse to provide a sample as required by these regulations may be penalized by the Stewards or the Stewards of the Club.

- 6.2.9 In respect of a horse registered under these Rules, where an owner, lessee, authorized or registered agent, trainer and/or person in charge of a horse is in breach of these regulations to produce or give full access to the horse, the relevant horse will not be permitted to start in any race for a period of 6 months following the day on which the horse is in fact produced to the Stewards, or full access to the horse is otherwise given to the Stewards, so that a sample may be taken and analysed for the presence of AAS.
- 6.2.10 All horses born in Barbados must be registered in accordance with these Rules.
- a. Certificates for all permanently imported horses must be registered with the BTC within 90 days of arrival of a horse in Barbados. Application for Registration must inter alia, be accompanied by an AAS clearing certificate that is reported to show no evidence of AAS administration following a BTC approved sampling process and analysis at a BTC approved laboratory such sampling process shall be carried out within 14 days of the horse having arrived in Barbados. All costs associated with the collection and analysis of the sample will be borne by the person in whose name the horse is registered or to be registered.
 - b. Horses imported from a jurisdiction which have equivalent AAS rules to the BTC and which have spent 12 months under their

equivalent policies will be exempt from this requirement.

c. Runners from a jurisdiction which have equivalent AAS rules to those of the BTC will be treated as Barbados runners and sampled as per BTC standard testing policies (due to their mirror policies).

d. All other foreign runners will be subjected to AAS sampling directives and procedures prescribed by the BTC and must be in Barbados (and the BTC notified of their whereabouts) a minimum of 3 business days in advance of their intended race. This will facilitate post-arrival sampling. Once a horse has satisfied the criteria to race in Barbados and then subsequently leaves Barbados to race or train in a jurisdiction that has equivalent AAS rules to Barbados it will not need to be resampled under the requirements of this policy prior to racing in Barbados provided it has remained resident in such a jurisdiction that has equivalent AAS rules to the BTC.

- 6.2.11 Where a horse has been the subject of an examination under these Rules and the result of an Analysis of any sample is positive for an AAS the finding of such positive result is prima facie evidence that:
- i. the AAS was administered and was present in the horse's body contrary to these regulations and
 - ii. the AAS was administered by, under the

direction of, or with the knowledge and consent of the registered Trainer being the person responsible for adherence to these regulations (the Responsible Person) provided that the horse is at the time of sampling under his care and control.

- 6.2.12 If the horse is not under the care and control of a registered Trainer, the owner shall be the Responsible Person, however additional person(s) may also be proven to be party to the administration of an AAS.
- 6.2.13 Should a horse test positive for AAS administration in circumstances where it might have been administered prior to the AAS ban the Responsible Person is required to prove that the AAS was administered prior to the effective date of these regulations and that it was at a time that the horse was permitted to receive an AAS.
- 6.2.14 The Responsible Person shall be deemed to have committed an offence under these Rules and where following a disciplinary hearing before the Stewards of the Club is found guilty of having committed such offence shall:
 - i. be disqualified for a period of 6 months.
 - ii. be fined the sum of \$5,000.00.unless there is a finding that special circumstances exist in which case the penalties may be reduced.
- 6.2.15 The AAS ban will be deemed to come into effect on June 1st 2015 at which time any AAS listed as having a threshold level in this Appendix will be deemed to have been removed from the list of substances with threshold levels.

7. Publication of the addition, reclassification or amendment by the Secretary at the direction of the Stewards of the Club on the Club's Notice Board shall be sufficient to effectuate an amendment to this Appendix.

Please see attached 2019 FEI prohibited substance list. This is merely a guideline which is being published as a matter of convenience and we offer no guarantee that all prohibited substances are included on this list.

Please be aware that where the FEI have listed a controlled substance then any FEI reference laboratory will apply a screening limit or international threshold to these substances. Also note that there are some substances which are permitted by FEI but not by a racing regulator and vice versa.

It is imperative that you always check with a BTC authorised Veterinary Officer before administering anything other than normal feed or water to a racehorse.

Please continue to monitor the IFHA and BHA websites for updates and advisories on prohibited substances and controlled medications etc.

Sincerely,

Rosette M. Peirce

Secretary/ Chief Executive Officer

2019 Equine Prohibited Substances List

- Prohibited Substances include any other substance with a similar chemical structure or similar biological effect(s).
- Prohibited Substances that are identified as Specified Substances in the List below should not in any way be considered less important or less dangerous than other Prohibited Substances. Rather, they are simply substances which are more likely to have been ingested by Horses for a purpose other than the enhancement of sport performance, for example, through a contaminated food substance.

LISTED AS	SUBSTANCE	ACTIVITY
BANNED	1-androsterone	Anabolic (<i>Addition for 2019</i>)
BANNED	3 β -Hydroxy-5 α -androstan-17-one	Anabolic (<i>Addition for 2019</i>)
BANNED	4-chlorometatandienone	Anabolic (<i>Addition for 2019</i>)
BANNED	5 α -Androst-2-ene-17one	Anabolic (<i>Addition for 2019</i>)
BANNED	5 α -Androstane-3 α , 17 α -diol	Anabolic (<i>Addition for 2019</i>)
BANNED	5 α -Androstane-3 α , 17 β -diol	Anabolic (<i>Addition for 2019</i>)
BANNED	5 α -Androstane-3 β , 17 α -diol	Anabolic (<i>Addition for 2019</i>)
BANNED	5 α -Androstane-3 β , 17 β -diol	Anabolic (<i>Addition for 2019</i>)
BANNED	5 β -Androstane-3 α , 17 β -diol	Anabolic (<i>Addition for 2019</i>)
BANNED	7 α -Hydroxy-DHEA	Anabolic (<i>Addition for 2019</i>)
BANNED	7 β -Hydroxy-DHEA	Anabolic (<i>Addition for 2019</i>)
BANNED	7-Keto-DHEA	Anabolic (<i>Addition for 2019</i>)
CONTROLLED	17-Alpha-Hydroxy Progesterone FEMALES	Hormone
BANNED	17-Alpha-Hydroxy Progesterone MALES	Anabolic
BANNED	19-Norandrosterone	Anabolic (<i>Addition for 2019</i>)
BANNED	19-Noretiocholanolone	Anabolic (<i>Addition for 2019</i>)
BANNED	20-Hydroxyecdysone	Anabolic (<i>Addition for 2019</i>)
BANNED	Δ 1-Testosterone	Anabolic (<i>Addition for 2019</i>)
BANNED	Acebutolol	Beta blocker
BANNED	Acefylline	Bronchodilator
BANNED	Acemetacin	Non-steroidal anti-inflammatory drug
BANNED	Acenocoumarol	Anticoagulant
CONTROLLED	Acepromazine	Sedative
BANNED	Acetanilid	Analgesic/antipyretic
CONTROLLED	Acetazolamide	Carbonic Anhydrase Inhibitor
BANNED	Acetohexamide	Pancreatic stimulant
CONTROLLED	Acetaminophen (Paracetamol)	Analgesic (<i>New category for 2019</i>)
BANNED	Acetophenazine	Antipsychotic
BANNED	Acetophenetidin (Phenacetin)	Analgesic
BANNED	Acetylmorphine	Narcotic
BANNED	Adinazolam	Anxiolytic
BANNED	Adiphenine	Antispasmodic
BANNED	Adrafinil	Stimulant

2019 Equine Prohibited Substances List

- Prohibited Substances include any other substance with a similar chemical structure or similar biological effect(s).
- Prohibited Substances that are identified as Specified Substances in the List below should not in any way be considered less important or less dangerous than other Prohibited Substances. Rather, they are simply substances which are more likely to have been ingested by Horses for a purpose other than the enhancement of sport performance, for example, through a contaminated food substance.

CONTROLLED	Adrenaline	Stimulant
BANNED	Adrenochrome	Haemostatic
CONTROLLED	Adrenocorticotrophic hormone (ACTH)	Hormone
CONTROLLED	Aformoterol	Bronchodilator (<i>New category for 2019</i>)
BANNED	AICAR	Anabolic
CONTROLLED	Albuterol (Salbutamol)	Bronchodilator
BANNED	Alclofenac	Non-steroidal anti-inflammatory drug
BANNED	Alcurnonium	Muscle relaxant
BANNED	Aldosterone	Hormone
BANNED	Alendronate	Bisphosphonates (<i>Addition for 2019</i>)
BANNED	Alfentanil	Narcotic
BANNED	Allopurinol	Xanthine oxidase inhibitor (antihyperuricaemia)
BANNED	Almotriptan	5-hydroxytryptamine agonist (antimigraine)
CONTROLLED	Alpha-Casozepine	Sedative (<i>Addition for 2019</i>)
BANNED	Alphadolone acetate	Neurosteroid
BANNED	Alphaprodine	Opioid analgesic
BANNED	Alpidem	Anxiolytic
BANNED	Alprazolam	Anxiolytic
BANNED	Alprenolol	Beta blocker
BANNED	Althesin	IV anaesthetic
BANNED	Althiazide	Diuretic
CONTROLLED	Altrenogest (in males and geldings)	Oestrus suppression
BANNED	Alverine	Antispasmodic
CONTROLLED	Amantadine	Dopaminergic
BANNED	Ambenonium	Cholinesterase inhibition
CONTROLLED	Ambroxol	Mucolytic
BANNED	Ambucetamide	Antispasmodic
CONTROLLED	Amcinonide	Corticosteroid
BANNED	Amfepramone	Stimulant
BANNED	Amfetaminil	Stimulant
BANNED	Amidephrine	Vasoconstrictor
BANNED	Amiloride	Diuretic
BANNED	Amineptine	Tricyclic antidepressant
CONTROLLED	Aminocaproic acid	Haemostatic (anti-fibrinolytic)

2019 Equine Prohibited Substances List

- Prohibited Substances include any other substance with a similar chemical structure or similar biological effect(s).
- Prohibited Substances that are identified as Specified Substances in the List below should not in any way be considered less important or less dangerous than other Prohibited Substances. Rather, they are simply substances which are more likely to have been ingested by Horses for a purpose other than the enhancement of sport performance, for example, through a contaminated food substance.

BANNED	Aminoglutehthamide	Aromatase inhibitor
BANNED	Aminoheptane	Vasopressor
BANNED	Aminomethylbenzoic acid	Anti-fibrinolytic
CONTROLLED	Aminophylline	Bronchodilator
BANNED	Aminopicoline	Nitric oxide synthase inhibitor
BANNED	Aminopromazine	Antispasmodic
BANNED	Aminopterin	Immunosuppressant
CONTROLLED	Aminorex	Parasympathomimetic
CONTROLLED	Amiodarone	Anti-arrhythmic (<i>New category for 2019</i>)
BANNED	Amiphenazole	Stimulant
BANNED	Amisometradine	Diuretic
BANNED	Amisulpride	Antipsychotic
BANNED	Amitriptylline	Tricyclic antidepressant
BANNED	Amlodipine	Antihypertensive
BANNED	Ammonium Chloride (injection)	Acidifying agent
BANNED	Ammonium Sulphate	Nerve-blocking agent
BANNED	Ammonium Sulphide	Nerve-blocking agent
BANNED	Amobarbital	Sedative
BANNED	Amodiaquine	Antimalarial
BANNED	Amopyroquine	Antimalarial
BANNED	Amoxapine	Tricyclic antidepressant
BANNED	Amperozide	Antipsychotic
BANNED	Amphetamine	Stimulant
BANNED	Amphetaminil	Stimulant
BANNED	Ampyrone	Non-steroidal anti-inflammatory drug
BANNED	Amrinone	Vasodilator
BANNED	Amyl nitrate/nitrite	Angina treatment
BANNED	Amylocaine	Local anaesthetic
BANNED	Anabolic Steroid Ester	Anabolic (<i>Addition for 2019</i>)
BANNED	Anastrozole	Aromatase inhibitor
BANNED	Andarine	Selective Androgen Receptor Modulator
BANNED	Androstanolone	Anabolic (<i>Addition for 2019</i>)
BANNED	Androstenediol	Anabolic
BANNED	Androstenedione	Anabolic
BANNED	Androsterone	Anabolic (<i>Addition for 2019</i>)

2019 Equine Prohibited Substances List

- Prohibited Substances include any other substance with a similar chemical structure or similar biological effect(s).
- Prohibited Substances that are identified as Specified Substances in the List below should not in any way be considered less important or less dangerous than other Prohibited Substances. Rather, they are simply substances which are more likely to have been ingested by Horses for a purpose other than the enhancement of sport performance, for example, through a contaminated food substance.

BANNED	Anileridine	Opioid analgesic
BANNED	Anilopam	Central Nervous System stimulant
BANNED	Anisindione	Anticoagulant
BANNED	Anisotropine	Anticholinergic
CONTROLLED	Antazoline	Antihistamine
BANNED	Antipyrine	Non-steroidal anti-inflammatory drug
BANNED	Apazone (Azapropazone)	Non-steroidal anti-inflammatory drug
BANNED	Apocodeine	Opioid analgesic
BANNED	Apomorphine	Opioid analgesic
BANNED	Aprindine	Anti-arrhythmic
BANNED	Aprobarbital	Sedative
BANNED	Apronalide	Sedative
BANNED	Arecoline	Stimulant
BANNED	Argon	Hypoxia Inducible Factor (HIF) Activator <i>(Addition for 2019)</i>
BANNED	Arsenic	Stimulant/toxic
BANNED	Articaine	Local anaesthetic
BANNED	Atenolol	Beta blocker
CONTROLLED	Atipamezole	Alpha adrenergic antagonist
BANNED	Atomoxetine	Selective noradrenaline re-uptake inhibitor
BANNED	Atracurium	Muscle relaxant
CONTROLLED	Atropine (<i>Specified Substance</i>)	Anticholinergic
BANNED	Azacyclonal	Antipsychotic
BANNED	Azaperone	Sedative
BANNED	Azapetine	Vasodilator
BANNED	Azapropazone (Apazone)	Non-steroidal anti-inflammatory drug
CONTROLLED	Azatadine	Antihistamine
BANNED	Azathioprine	Immunosuppressant
BANNED	Azosemide	Diuretic <i>(Addition for 2019)</i>
BANNED	Baclofen	Antispasmodic
BANNED	Bambuterol	Bronchodilator
BANNED	Bamifylline	Bronchodilator
BANNED	Barbital	Sedative
BANNED	Beclamide	Sedative
CONTROLLED	Beclomethasone	Corticosteroid

2019 Equine Prohibited Substances List

- Prohibited Substances include any other substance with a similar chemical structure or similar biological effect(s).
- Prohibited Substances that are identified as Specified Substances in the List below should not in any way be considered less important or less dangerous than other Prohibited Substances. Rather, they are simply substances which are more likely to have been ingested by Horses for a purpose other than the enhancement of sport performance, for example, through a contaminated food substance.

BANNED	Bemegride	Stimulant
BANNED	Benactyzine	Anticholinergic
BANNED	Benapryzine	Anticholinergic
BANNED	Benazepril	Antihypertensive
BANNED	Bendroflumethazide	Diuretic
BANNED	Benorilate	Non-steroidal anti-inflammatory drug
BANNED	Benoxaprofen	Non-steroidal anti-inflammatory drug
BANNED	Benoxinate	Local anaesthetic
BANNED	Benperidol	Antipsychotic
BANNED	Bentazepam	Anxiolytic
CONTROLLED	Benzocaine (Ethyl Aminobenzoate)	Local anaesthetic
BANNED	Benzoctamine	Sedative
BANNED	Benzonatate	Antitussive
BANNED	Benzoyllecgonine	Stimulant/cocaine metabolite
BANNED	Benzphetamine	Stimulant
CONTROLLED	Benzquinamide	Antihistamine
BANNED	Benzthiazide	Diuretic
BANNED	Benztropine	Anticholinergic
CONTROLLED	Benzylamine	Non-steroidal anti-inflammatory drug
BANNED	Benzylpiperazine	Stimulant
BANNED	Bepidil	Calcium channel blocker
CONTROLLED	Betamethasone	Corticosteroid
BANNED	Betaprodine	Opioid analgesic
BANNED	Betaxolol	Beta blocker
CONTROLLED	Bethanechol	Parasympathetic agonist
BANNED	Bethanidine	Antihypertensive
BANNED	Biperiden	Anticholinergic
BANNED	Biphenamine	Non-steroidal anti-inflammatory drug
BANNED	Biriperone	Antipsychotic
BANNED	Bisoprolol	Beta blocker
BANNED	Bitolterol	Bronchodilator
BANNED	Bolandiol	Anabolic
BANNED	Bolasterone	Anabolic

2019 Equine Prohibited Substances List

- Prohibited Substances include any other substance with a similar chemical structure or similar biological effect(s).
- Prohibited Substances that are identified as Specified Substances in the List below should not in any way be considered less important or less dangerous than other Prohibited Substances. Rather, they are simply substances which are more likely to have been ingested by Horses for a purpose other than the enhancement of sport performance, for example, through a contaminated food substance.

BANNED	Boldenone	Anabolic. Threshold substance: 0.015 micrograms free and conjugated boldenone per millilitre in urine from male Horses (other than geldings).
BANNED	Boldione	Anabolic
BANNED	Bretylium	Anti-arrhythmic
BANNED	Brimonidine	Ocular antihypertensive
CONTROLLED	Brinzolamide	Diuretic
BANNED	Bromantan	Stimulant
BANNED	Bromazepam	Anxiolytic
BANNED	Bromfenac	Non-steroidal anti-inflammatory drug
CONTROLLED	Bromhexine	Mucolytic
BANNED	Bromisovalum	Sedative
BANNED	Bromocriptine	Dopamine agonist
CONTROLLED	Bromodiphenhydramine	Antihistamine
BANNED	Bromophenethylamine	Psychedelic
BANNED	Bromperidol	Antipsychotic
CONTROLLED	Brompheniramine	Antihistamine
BANNED	Brotizolam	Anxiolytic
BANNED	Bucetin	Analgesic/antipyretic
CONTROLLED	Buclizine	Antihistamine
CONTROLLED	Budesonide	Corticosteroid
BANNED	Bufexamac	Non-steroidal anti-inflammatory drug
BANNED	Buflomedil	Vasoactive agent
BANNED	Bufotenine (<i>Specified Substance</i>)	Naturally occurring hallucinogen
BANNED	Bumetanide	Diuretic
BANNED	Bunitrolol	Beta adrenergic antagonist
BANNED	Bunolol	Beta blocker
BANNED	Buphenine (Nylidrin)	Sympathomimetic
CONTROLLED	Bupivacaine	Local anaesthetic
BANNED	Bupranolol	Beta blocker
CONTROLLED	Buprenorphine	Opioid
BANNED	Bupropion	Antidepressant
BANNED	Buspirone	Anxiolytic
BANNED	Butabarbital	Sedative
BANNED	Butacaine	Local anaesthetic

2019 Equine Prohibited Substances List

- Prohibited Substances include any other substance with a similar chemical structure or similar biological effect(s).
- Prohibited Substances that are identified as Specified Substances in the List below should not in any way be considered less important or less dangerous than other Prohibited Substances. Rather, they are simply substances which are more likely to have been ingested by Horses for a purpose other than the enhancement of sport performance, for example, through a contaminated food substance.

BANNED	Butalbital	Sedative
BANNED	Butamben	Nerve blocker
BANNED	Butanilcaine	Local anaesthetic
BANNED	Butaperazine	Antipsychotic
BANNED	Butoctamide	Serotonin release stimulation
BANNED	Butofilolol	Beta blocker
CONTROLLED	Butorphanol	Opioid
BANNED	Butoxycaine	Local anaesthetic
CONTROLLED	Butylscopolamine	Anticholinergic
BANNED	Cafedrine	Analeptic
CONTROLLED	Caffeine (<i>Specified Substance</i>)	Central nervous system stimulant
CONTROLLED	Calcium Dobesilate	Vasotropic
BANNED	Calusterone	Anabolic
BANNED	Camazepam	Anxiolytic
BANNED	Candesartan	Antihypertensive
BANNED	Natural Cannabinoids, synthetic cannabinoids and other cannabimimetics	Psychotropic
BANNED	Canrenone	Diuretic
BANNED	Capsaicin	Topical analgesic/irritant
BANNED	Captodiame	Anxiolytic
CONTROLLED	Captopril	Angiotensin-converting enzyme inhibitor
BANNED	Caramiphen	Anticholinergic
BANNED	Carazolol	Beta blocker
BANNED	Carbachol	Parasympathomimetic
CONTROLLED	Carbamazepine	Anticonvulsant
BANNED	Carbazochrome	Haemostatic
BANNED	Carbetapentane (Pentoxifyverine)	Antitussive
BANNED	Carbidopa	Di hydroxyphenylalanine decarboxylase inhibitor
BANNED	Carbimazole	Antihyperthyroidism
CONTROLLED	Carbinoxamine	Antihistamine
BANNED	Carbocysteine	Mucoactive
CONTROLLED	Carbon dioxide (CO ₂)	Threshold substance: 36 millimoles per litre in plasma.
BANNED	Carbromal	Sedative
BANNED	Carbuterol	Bronchodilator
BANNED	Carfentanil	Opioid analgesic

2019 Equine Prohibited Substances List

- Prohibited Substances include any other substance with a similar chemical structure or similar biological effect(s).
- Prohibited Substances that are identified as Specified Substances in the List below should not in any way be considered less important or less dangerous than other Prohibited Substances. Rather, they are simply substances which are more likely to have been ingested by Horses for a purpose other than the enhancement of sport performance, for example, through a contaminated food substance.

BANNED	Carisoprodol	Muscle relaxant
BANNED	Carphedon (Phenylpiracetam)	Stimulant
BANNED	Carphenazine	Antipsychotic
BANNED	Carpipramine	Anxiolytic
CONTROLLED	Carprofen	Non-steroidal anti-inflammatory drug
BANNED	Carteolol	Beta blocker
BANNED	Carticaine	Local anaesthetic
BANNED	Carvedilol	Beta blocker
BANNED	Cathine (Norpseudoephedrine)	Stimulant
BANNED	Celecoxib	Non-steroidal anti-inflammatory drug
BANNED	Celiprolol	Beta blocker
BANNED	Cephaeline	Emetic
CONTROLLED	Ceterizine	Antihistamine [Alternative spelling]
CONTROLLED	Cetirizine	Antihistamine
BANNED	Chloral betaine	Sedative
BANNED	Chloral hydrate	Sedative
BANNED	Chloralbutanol	Topical analgesic
CONTROLLED	Chlorcyclizine	Antihistamine
BANNED	Chlordiazepoxide	Anxiolytic
CONTROLLED	Chlormadinone acetate	Hormone
BANNED	Chlormerodrin	Diuretic
BANNED	Chlormethiazole	Sedative
BANNED	Chlormezanone	Anxiolytic
BANNED	Chloroform	Sedative
BANNED	Chlorophenesin	Muscle relaxant
BANNED	Chlorophenyl piperazine	Psychoactive
BANNED	Chloroprocaine	Local anaesthetic
CONTROLLED	Chloropyramine	Antihistamine
BANNED	Chloroquine	Antimalarial
CONTROLLED	Chlorothiazide (Chlorthiazide)	Diuretic
CONTROLLED	Chlorpheniramine	Antihistamine
BANNED	Chlorphenoxamine	Antipruritic
BANNED	Chlorphentermine	Stimulant
CONTROLLED	Chlorproethazine	Antihistamine
BANNED	Chlorpromazine	Sedative
BANNED	Chlorpropamide	Antidiabetic

2019 Equine Prohibited Substances List

- Prohibited Substances include any other substance with a similar chemical structure or similar biological effect(s).
- Prohibited Substances that are identified as Specified Substances in the List below should not in any way be considered less important or less dangerous than other Prohibited Substances. Rather, they are simply substances which are more likely to have been ingested by Horses for a purpose other than the enhancement of sport performance, for example, through a contaminated food substance.

BANNED	Chlorprothixene	Antipsychotic
BANNED	Chlorthalidone	Diuretic
BANNED	Chlorthenoxazine	Non-steroidal anti-inflammatory drug
CONTROLLED	Chlorthiazide (Chlorothiazide)	Diuretic
BANNED	Chlorzoxazone	Muscle relaxant
BANNED	Ciclesonide	Corticosteroid
BANNED	Cicloprofen	Non-steroidal anti-inflammatory drug
BANNED	Cilazapril	Antihypertensive
BANNED	Cilostazol	Vasodilator
BANNED	Cimaterol	Beta agonist
BANNED	Cinchocaine	Local anaesthetic
BANNED	Cinchophen	Non-steroidal anti-inflammatory drug
CONTROLLED	Cinnarizine	Antihistamine
BANNED	Citalopram	Antidepressant
CONTROLLED	Clanobutin	Choleretic
CONTROLLED	Clemastine	Antihistamine
CONTROLLED	Clemizole	Antihistamine
CONTROLLED	Clenbuterol	Bronchodilator
BANNED	Clibucaine	Local anaesthetic
BANNED	Clidinium	Anticholinergic
BANNED	Clobazam	Anxiolytic
BANNED	Clobenzorex	Stimulant
CONTROLLED	Clobetasol	Corticosteroid
BANNED	Clocapramine	Antidepressant
BANNED	Clocortolone	Corticosteroid
CONTROLLED	Clodronic Acid	Bisphosphonate
BANNED	Clofenamid	Carbonate anhydrase inhibitor
BANNED	Clomethiazole	Sedative
BANNED	Clomiphene	Oestrogen receptor modulator
BANNED	Clomipramine (Clomiprimine)	Antidepressant
BANNED	Clomiprimine (Clomipramine)	Antidepressant
BANNED	Clonazepam	Anxiolytic
CONTROLLED	Clonidine	Antihypertensive
BANNED	Clonixin	Non-steroidal anti-inflammatory drug
BANNED	Clopamide	Dopamine antagonist

2019 Equine Prohibited Substances List

- Prohibited Substances include any other substance with a similar chemical structure or similar biological effect(s).
- Prohibited Substances that are identified as Specified Substances in the List below should not in any way be considered less important or less dangerous than other Prohibited Substances. Rather, they are simply substances which are more likely to have been ingested by Horses for a purpose other than the enhancement of sport performance, for example, through a contaminated food substance.

BANNED	Cloranolol	Beta blocker
BANNED	Clorazepate	Anxiolytic
BANNED	Clormecaine	Local anaesthetic
CONTROLLED	Clorprenaline	Antihistamine
BANNED	Clostebol	Anabolic
BANNED	Clothiapine	Antidepressant
BANNED	Clotiazepam	Anxiolytic
BANNED	Cloxazolam	Anxiolytic
BANNED	Clozapine	Antipsychotic
CONTROLLED	Cobalt	Erythropoiesis
BANNED	Cocaine	Stimulant/local anaesthetic
CONTROLLED	Codeine (<i>Specified Substance when detected as a metabolite of morphine</i>)	Analgesic
BANNED	Colchicine (<i>Specified Substance</i>)	Rheumatic treatment/anti-cancer
BANNED	Conorphone	Opioid analgesic
BANNED	Coroxon	Anticoagulant
CONTROLLED	Cortisone	Corticosteroid
BANNED	Cortivazol	Corticosteroid
BANNED	Cotinine	Nicotine metabolite
BANNED	Coumarin	Anticoagulant
CONTROLLED	Cromoglycate	Antihistamine
CONTROLLED	Cromolyn	Bronchodilator
BANNED	Cropropamide	Stimulant
BANNED	Crotehamide	Stimulant
BANNED	Cyamemazine	Antipsychotic
BANNED	Cyclandelate	Vasodilator
CONTROLLED	Cyclizine	Antihistamine
BANNED	Cyclobarbitol	Sedative
BANNED	Cyclobenzaprine	Muscle relaxant
BANNED	Cycloguanil	Antimalarial
BANNED	Cyclomethycaine	Local anaesthetic
BANNED	Cyclopentamine	Psychoactive
BANNED	Cyclopentolate	Antimuscarinic
CONTROLLED	Cyclophenil	Anti-oestrogenic
BANNED	Cyclothiazide	Diuretic
BANNED	Cycrimine	Anticholinergic
CONTROLLED	Cyproheptadine	Antihistamine

2019 Equine Prohibited Substances List

- Prohibited Substances include any other substance with a similar chemical structure or similar biological effect(s).
- Prohibited Substances that are identified as Specified Substances in the List below should not in any way be considered less important or less dangerous than other Prohibited Substances. Rather, they are simply substances which are more likely to have been ingested by Horses for a purpose other than the enhancement of sport performance, for example, through a contaminated food substance.

BANNED	Danazol	Anabolic
CONTROLLED	Dantrolene	Muscle relaxant
BANNED	Dapsone	Antileprotic
BANNED	Decamethonium	Muscle relaxant
BANNED	Dehydrochloromethyltestosterone	Anabolic
BANNED	Dehydrochlorotestosterone	Anabolic
CONTROLLED	Delmadinone acetate	Hormone
BANNED	Delorazepam	Anxiolytic
CONTROLLED	Dembrexine	Mucolytic
BANNED	Demecolcine (<i>Specified Substance</i>)	Rheumatic treatment/anti-cancer
BANNED	Demoxepam	Anxiolytic
BANNED	Deoxycorticosterone	Corticosteroid
CONTROLLED	Deptropine	Antihistamine with anticholinergic activity
CONTROLLED	Deracoxib	Non-steroidal anti-inflammatory drug
BANNED	Dermorphin	Peptide opioid receptor agonist
BANNED	Deserpidine	Antipsychotic
BANNED	Desipramine	Antidepressant
CONTROLLED	Desmethylpyrilamine	Antihistamine
BANNED	Desonide	Corticosteroid
BANNED	Desoximethasone (Desoxymethasone)	Corticosteroid
BANNED	Desoxyephedrine	Stimulant
BANNED	Desoxymethasone (Desoximethasone)	Corticosteroid
BANNED	Desoxymethyltestosterone	Anabolic
BANNED	Desoxyvinyl-testosterone	Anabolic (<i>Addition for 2019</i>)
CONTROLLED	Detomidine	Sedative
CONTROLLED	Dexamethasone	Corticosteroid
BANNED	Dextromethorphan	Antitussive
BANNED	Dextromoramide	Narcotic
BANNED	Dextropropoxyphene	Opioid analgesic
BANNED	Dextrorphan	Antitussive
BANNED	Dezocine	Opioid analgesic
BANNED	Diacerein	Antiarthritic
BANNED	Diamorphine (Heroin)	Narcotic
BANNED	Diaveridine	Folic acid antagonist
CONTROLLED	Diazepam	Anxiolytic

2019 Equine Prohibited Substances List

- Prohibited Substances include any other substance with a similar chemical structure or similar biological effect(s).
- Prohibited Substances that are identified as Specified Substances in the List below should not in any way be considered less important or less dangerous than other Prohibited Substances. Rather, they are simply substances which are more likely to have been ingested by Horses for a purpose other than the enhancement of sport performance, for example, through a contaminated food substance.

BANNED	Diazoxide	Muscle relaxant
BANNED	Dibenzepin	Psychoactive
BANNED	Dibucaine	Local anaesthetic
BANNED	Dichlorisone	Corticosteroid
CONTROLLED	Dichloroacetate	Lactanase
BANNED	Dichlorphenamide	Carbonic anhydrase inhibitor
CONTROLLED	Diclofenac	Non-steroidal anti-inflammatory drug
BANNED	Dicumarol	Anticoagulant
BANNED	Diethylpropion	Anorexic
BANNED	Diethylthiambutene	Opioid analgesic
BANNED	Diethyltryptamine	Psychedelic
BANNED	Diflorasone acetate	Corticosteroid
BANNED	Diflucortolone	Corticosteroid
BANNED	Diflunisal	Analgesic
BANNED	Digitoxin	Anti-arrhythmic
CONTROLLED	Digoxin	Anti-arrhythmic
BANNED	Dihydrocodeine	Opioid analgesic
BANNED	Dihydrocodeinone	Opioid analgesic
BANNED	Dihydroergotamine	Ergot alkaloid
BANNED	Dihydromorphine	Opioid analgesic
BANNED	Diisopropylamine	Vasodilator
CONTROLLED	Diltiazem	Antihypertensive
BANNED	Dimeflin	Respiratory stimulant
BANNED	Dimethindene	Antipruritic
BANNED	Dimethisoquin	Local anaesthetic
CONTROLLED	Dimethyl Sulphoxide (DMSO)	Solvent. Threshold substance: 15 micrograms per millilitre in urine, or 1 microgram per ml in plasma.
BANNED	Dimethylamphetamine	Stimulant
BANNED	Dimethyltryptamine	Psychedelic
BANNED	Diphenadione	Anticoagulant
CONTROLLED	Diphenhydramine	Antihistamine
BANNED	Diphenoxylate	Opioid agonist
CONTROLLED	Diphenylpyraline	Antihistamine
BANNED	Dipipanone	Opioid analgesic
BANNED	Diprenorphine	Opioid analgesic
BANNED	Diprophylline	Bronchodilator

2019 Equine Prohibited Substances List

- Prohibited Substances include any other substance with a similar chemical structure or similar biological effect(s).
- Prohibited Substances that are identified as Specified Substances in the List below should not in any way be considered less important or less dangerous than other Prohibited Substances. Rather, they are simply substances which are more likely to have been ingested by Horses for a purpose other than the enhancement of sport performance, for example, through a contaminated food substance.

BANNED	Dipyridamole	Antiplatelet
CONTROLLED	Dipyrone(Metamizole)	Non-steroidal anti-inflammatory drug
BANNED	Disopyramide	Anti-arrhythmic
BANNED	Disulfiram	Aldehyde dehydrogenase inhibitor
BANNED	Dixyrazine	Antipsychotic
CONTROLLED	DMSO (Dimethyl Sulphoxide)	Solvent
CONTROLLED	Dobutamine	Sympathomimetic
BANNED	Donepezil	Cholinesterase inhibitor
BANNED	Dopamine	Stimulant: Threshold substance controlled by 4 µg/ml in urine for 3-methoxytyramine <i>(New category for 2019)</i>
BANNED	Dopexamine	Beta 2 adrenergic receptor agonist
CONTROLLED	Dopram	Stimulant <i>(New category for 2019)</i>
CONTROLLED	Dorzolamide	Carbonic Anhydrase Inhibitor
BANNED	Dothiepin	Antidepressant
BANNED	Doxacurium	Muscle relaxant
BANNED	Doxepin	Antidepressant
CONTROLLED	Doxylamine	Antihistamine
BANNED	Drofenine	Antispasmodic
BANNED	Dromostanolone	Anabolic
BANNED	Droperidol	Antipsychotic
BANNED	Drospirenone	Diuretic
BANNED	Drostanolone	Anabolic
BANNED	Duloxetine	Antidepressant
BANNED	Dyclonine	Oral anaesthetic
BANNED	Dyphylline	Muscle relaxant
BANNED	Ecgonine methyl ester	Cocaine metabolite
CONTROLLED	Edrophonium	Angiotensin-converting enzyme inhibitor
BANNED	Efaproxiral	Haemoglobin modifier
BANNED	Eletriptan	Migraine relief
CONTROLLED	Eltencac	Non-steroidal anti-inflammatory drug
CONTROLLED	Embramine	Antihistamine
BANNED	Embutramide	Sedative
BANNED	Emepronium	Antispasmodic
CONTROLLED	Enalapril (Enalaprilat)	Angiotensin-converting enzyme inhibitor

2019 Equine Prohibited Substances List

- Prohibited Substances include any other substance with a similar chemical structure or similar biological effect(s).
- Prohibited Substances that are identified as Specified Substances in the List below should not in any way be considered less important or less dangerous than other Prohibited Substances. Rather, they are simply substances which are more likely to have been ingested by Horses for a purpose other than the enhancement of sport performance, for example, through a contaminated food substance.

CONTROLLED	Enalaprilat (Enalapril)	Angiotensin-converting enzyme inhibitor
BANNED	Enciprazine	Anxiolytic
BANNED	Endorphins	Endogenous opioids
BANNED	Enkephalins	Endogenous pain relief
BANNED	Ephedrine	Stimulant (High level)
BANNED	Epibatidine	Analgesic
BANNED	Epi-dihydrotestosterone	Anabolic (<i>Addition for 2019</i>)
BANNED	Epiternbolone	Anabolic
BANNED	Epitestosterone	Anabolic (<i>Addition for 2019</i>)
BANNED	Eplerenone	Diuretic (<i>Addition for 2019</i>)
BANNED	Ergonovine (<i>Specified Substance</i>)	Vasoconstrictor
BANNED	Ergotamine (<i>Specified Substance</i>)	Plant alkaloid
BANNED	Erythryl tetranitrate	Blood vessel relaxant
BANNED	Erythropoietin (EPO), recombinant EPO and synthetic analogues	Erythropoiesis
BANNED	Esmolol	Beta blocker
BANNED	Estazolam	Anxiolytic
BANNED	Estranediol	Anabolic. Threshold substance: Free and conjugated 5alpha-estrane-3beta, 17alpha-diol, 0.045 micrograms per millilitre in urine in male Horse (other than geldings).
CONTROLLED	Estrone	Oestrogen
BANNED	Etafedrine	Adrenergic
BANNED	Etamiphylline	Bronchodilator
BANNED	Etamivan	Stimulant
BANNED	Etanercept	Tumor necrosis factor inhibition
BANNED	Ethacrynic acid	Diuretic
BANNED	Ethamivan	Respiratory stimulant
BANNED	Ethamsylate	Haemostatic
BANNED	Ethaverine	Vasodilator
BANNED	Ethchlorvynol	Sedative
BANNED	Ethiazide	Diuretic
BANNED	Ethinamate	Sedative
BANNED	Ethinylestradiol	Oestrogen
BANNED	Ethoheptazine	Opioid analgesic
CONTROLLED	Ethanol	Sedative and neurolytic
BANNED	Ethopropazine	Antimuscarinic

2019 Equine Prohibited Substances List

- Prohibited Substances include any other substance with a similar chemical structure or similar biological effect(s).
- Prohibited Substances that are identified as Specified Substances in the List below should not in any way be considered less important or less dangerous than other Prohibited Substances. Rather, they are simply substances which are more likely to have been ingested by Horses for a purpose other than the enhancement of sport performance, for example, through a contaminated food substance.

BANNED	Ethosuximide	Anti-epileptic
BANNED	Ethotoin	Anticonvulsant
BANNED	Ethoxzolamide	Carbonic anhydrase inhibitor
CONTROLLED	Ethyl Aminobenzoate (Benzocaine)	Local anaesthetic
BANNED	Ethyl Loflazepate	Anxiolytic
BANNED	Ethylamphetamine	Stimulant
BANNED	Ethylestrenol	Anabolic
BANNED	Ethylisobutrazine	Sedative
BANNED	Ethylmorphine	Opioid analgesic
BANNED	Ethylnorepinephrine	Bronchodilator
BANNED	Etidocaine	Local anaesthetic
BANNED	Etifoxine	Anxiolytic
BANNED	Etilefrine	Stimulant
BANNED	Etiocholanolone	Anabolic <i>(Addition for 2019)</i>
BANNED	Etizolam	Anxiolytic
BANNED	Etodolac	Non-steroidal anti-inflammatory drug
BANNED	Etodroxizine	Stimulant
BANNED	Etomidate	Sedative
BANNED	Etoricoxib	Non-steroidal anti-inflammatory drug
BANNED	Etorphine	Opioid analgesic
BANNED	Exemestane	Aromatase inhibitor
BANNED	Famprofazone	Stimulant
BANNED	Febaramate	Muscle relaxant
BANNED	Felbamate	Anticonvulsant
CONTROLLED	Felbinac	Non-steroidal anti-inflammatory drug
BANNED	Felodipine	Antihypertensive
BANNED	Fenbufen	Non-steroidal anti-inflammatory drug
BANNED	Fenbutrazate	Stimulant
BANNED	Fencamfamine	Stimulant
BANNED	Fencamine	Stimulant
BANNED	Fenclofenac	Non-steroidal anti-inflammatory drug
BANNED	Fenclozic acid	Non-steroidal anti-inflammatory drug
BANNED	Fenethylamine (Fenetylline, Phenethylamine, Phenetylline)	Stimulant

2019 Equine Prohibited Substances List

- Prohibited Substances include any other substance with a similar chemical structure or similar biological effect(s).
- Prohibited Substances that are identified as Specified Substances in the List below should not in any way be considered less important or less dangerous than other Prohibited Substances. Rather, they are simply substances which are more likely to have been ingested by Horses for a purpose other than the enhancement of sport performance, for example, through a contaminated food substance.

BANNED	Fenetylline (Fenethylamine, Phenethylamine, Phenetylline)	Stimulant
BANNED	Fenfluramine	Stimulant
BANNED	Fenoldopam	Vasodilator
BANNED	Fenopropfen	Non-steroidal anti-inflammatory drug
CONTROLLED	Fenoterol	Bronchodilator (<i>New category for 2019</i>)
BANNED	Fenozolone	Psychoactive
BANNED	Fenpiprane	Gastrointestinal disorders
BANNED	Fenproporex	Stimulant
BANNED	Fenspiride	Non-steroidal anti-inflammatory drug
CONTROLLED	Fentanyl	Opioid analgesic
BANNED	Fentiazac	Pain relief
BANNED	Feprazone	Non-steroidal anti-inflammatory drug
CONTROLLED	Fexofenadine	Antihistamine
CONTROLLED	Firocoxib	Non-steroidal anti-inflammatory drug
BANNED	Flavoxate	Antispasmodic
BANNED	Flecainide	Anti-arrhythmic
BANNED	Floctafenine	Non-steroidal anti-inflammatory drug
BANNED	Flouroprednisolone (Fluprednisolone)	Corticosteroid
BANNED	Fluandrenolide (Fluandrenolone, Fludroxycortide)	Corticosteroid
BANNED	Fluandrenolone (Fluandrenolide, Fludroxycortide)	Corticosteroid
BANNED	Fluanisone	Sedative
BANNED	Fludiazepam	Anxiolytic
BANNED	Fludrocortisone (Fluorocortisone)	Corticosteroid
BANNED	Fludroxycortide (Fluandrenolide, Fluandrenolone)	Corticosteroid
BANNED	Flufenamic acid	Non-steroidal anti-inflammatory drug
CONTROLLED	Flumetasone (Flumethasone)	Corticosteroid
CONTROLLED	Flumethasone (Flumetasone)	Corticosteroid
BANNED	Flumethazide	Diuretic
BANNED	Flunarizine	Antihypertensive
BANNED	Flunisolide	Corticosteroid

2019 Equine Prohibited Substances List

- Prohibited Substances include any other substance with a similar chemical structure or similar biological effect(s).
- Prohibited Substances that are identified as Specified Substances in the List below should not in any way be considered less important or less dangerous than other Prohibited Substances. Rather, they are simply substances which are more likely to have been ingested by Horses for a purpose other than the enhancement of sport performance, for example, through a contaminated food substance.

BANNED	Flunitrazepam	Anxiolytic
CONTROLLED	Flunixin	Non-steroidal anti-inflammatory drug
BANNED	Fluocinolone	Corticosteroid
BANNED	Fluocinolone acetonide	Corticosteroid
BANNED	Fluocinonide	Corticosteroid
BANNED	Fluocortolone	Corticosteroid
BANNED	Fluopromazine (Triflupromazine)	Antipsychotic
BANNED	Fluoresone	Anti-epileptic
BANNED	Fluorocortisone (Fludrocortisone)	Corticosteroid
BANNED	Fluorometholone	Corticosteroid
BANNED	Fluorophenethylamine	Stimulant
BANNED	Fluoroprednisolone	Corticosteroid
BANNED	Fluoxetine	Antidepressant
BANNED	Fluoxymesterone	Anabolic
BANNED	Flupenthixol	Antidepressant
BANNED	Fluphenazine	Antipsychotic
BANNED	Flupirtine	Analgesic
BANNED	Fluprednisolone (Flouroprednisolone)	Corticosteroid
BANNED	Flurazepam	Anxiolytic
BANNED	Flurbiprofen	Non-steroidal anti-inflammatory drug
BANNED	Fluspirilene	Antipsychotic
CONTROLLED	Fluticasone	Corticosteroid
BANNED	Flutoprazepam	Anxiolytic
BANNED	Fluvoxamine	Antidepressant
BANNED	Formebolone	Anabolic
BANNED	Formestane	Aromatase inhibitor
CONTROLLED	Formoterol	Bronchodilator (<i>New category for 2019</i>)
BANNED	Fosinopril	Antihypertensive
BANNED	Fosphenytoin	Anticonvulsant
CONTROLLED	Fulvestrant	Oestrogen receptor antagonist
BANNED	Furazabol	Anabolic
BANNED	Furazadrol	Anabolic (<i>Addition for 2019</i>)
BANNED	Furfenorex	Stimulant
CONTROLLED	Furosemide	Diuretic

2019 Equine Prohibited Substances List

- Prohibited Substances include any other substance with a similar chemical structure or similar biological effect(s).
- Prohibited Substances that are identified as Specified Substances in the List below should not in any way be considered less important or less dangerous than other Prohibited Substances. Rather, they are simply substances which are more likely to have been ingested by Horses for a purpose other than the enhancement of sport performance, for example, through a contaminated food substance.

CONTROLLED	Gabapentin	Anti-epileptic (<i>New category for 2019</i>)
BANNED	Galantamine	Alzheimer medication - alkaloid
BANNED	Gallamine	Muscle relaxant
BANNED	Gamma amino butyric acid	Amino acid
BANNED	Gamma-Butyrolactone (GBL)	Sedative
BANNED	Gamma-Hydroxybutyrate (GHB)	Sedative
BANNED	Gepirone	Anxiolytic
BANNED	Gestrinone	Anabolic
BANNED	Glutethimide	Sedative
CONTROLLED	Glycopyrrolate	Anticholinergic
BANNED	Growth Factors	Growth promotion
BANNED	Growth Hormone (GH) - or analogues	Growth promotion
CONTROLLED	Guaifenesin	Expectorant
BANNED	Guanabenz	Sedative
BANNED	Guanadrel	Antihypertensive
BANNED	Guanethidine	Antihypertensive
BANNED	Guanoclor	Sympatholytic
BANNED	Guanoxan	Sympatholytic
BANNED	GW1516	Anabolic
BANNED	Haemaglobin analogues	Oxygen transport
BANNED	Halcinonide	Corticosteroid
BANNED	Halobetasol	Corticosteroid
BANNED	Halodrol	Anabolic (<i>Addition for 2019</i>)
BANNED	Haloperidol	Neuroleptic
BANNED	Harmaline	Psychoactive
CONTROLLED	Harpagoside	Anti-inflammatory
BANNED	Heptaminol	Stimulant
BANNED	Heroin (Diamorphine)	Narcotic
BANNED	Hexafluorenum	Muscle relaxant
BANNED	Hexobarbital	Sedative
BANNED	Hexocyclium	Antimuscarinic
BANNED	Hexylcaine	Local anaesthetic
CONTROLLED	Histapyrrodine	Antihistamine
BANNED	Homatropine	Anticholinergic
BANNED	Homophenazine	Psychiatric drug

2019 Equine Prohibited Substances List

- Prohibited Substances include any other substance with a similar chemical structure or similar biological effect(s).
- Prohibited Substances that are identified as Specified Substances in the List below should not in any way be considered less important or less dangerous than other Prohibited Substances. Rather, they are simply substances which are more likely to have been ingested by Horses for a purpose other than the enhancement of sport performance, for example, through a contaminated food substance.

CONTROLLED	Hordeine (<i>Specified Substance</i>)	Norepinephrine stimulant [Higher screening limit]
BANNED	Hydralazine	Vasodilator; afterload reducer
CONTROLLED	Hydrochlorothiazide (Hydrochlorothiazide)	Diuretic
CONTROLLED	Hydrochlorthiazide (Hydrochlorothiazide)	Diuretic
BANNED	Hydrocodone	Opioid analgesic
CONTROLLED	Hydrocortisone	Corticosteroid. Threshold substance: 1 microgram per millilitre in urine.
BANNED	Hydroflumethiazide	Diuretic
BANNED	Hydromorfinol	Opioid analgesic
BANNED	Hydromorphone	Opioid analgesic
BANNED	Hydroxyamphetamine	Stimulant
BANNED	Hydroxyephedrine (Oxilofrine)	Stimulant
BANNED	Hydroxy-gamma amino butyric acid	Psychoactive drug
BANNED	Hydroxytestosterone	Anabolic
CONTROLLED	Hydroxyzine	Sedative
CONTROLLED	Hyoscine (Scopolamine) (<i>Specified Substance</i>)	Parasympathetic
BANNED	Hyoscyamine (Atropine isomer)	Anticholinergic
BANNED	Ibandronate	Bisphosphonates (<i>Addition for 2019</i>)
BANNED	Ibogaine	Psychoactive indole
CONTROLLED	Ibuprofen	Non-steroidal anti-inflammatory drug
BANNED	Ibutilide	Anti-arrhythmic
BANNED	Iloprost	Vasodilator
BANNED	Imipramine	Antidepressant
BANNED	Indapamide	Diuretic
CONTROLLED	Indomethacin	Non-steroidal anti-inflammatory drug
BANNED	Indoprofen	Non-steroidal anti-inflammatory drug
BANNED	Indoramin	Antihypertensive
BANNED	Infliximab	Therapeutic antibody
CONTROLLED	Ipratropium	Bronchodilator/ Muscarinic antagonist
BANNED	Iprindole	Antidepressant
BANNED	Iproniazid	Antidepressant
BANNED	Ipsapirone	Anxiolytic

2019 Equine Prohibited Substances List

- Prohibited Substances include any other substance with a similar chemical structure or similar biological effect(s).
- Prohibited Substances that are identified as Specified Substances in the List below should not in any way be considered less important or less dangerous than other Prohibited Substances. Rather, they are simply substances which are more likely to have been ingested by Horses for a purpose other than the enhancement of sport performance, for example, through a contaminated food substance.

BANNED	Irbesartan	Antihypertensive
BANNED	Isoaminile	Antitussive
BANNED	Isocarboxazid	Antidepressant
BANNED	Isoetharine	Beta 2 adrenergic receptor agonist
CONTROLLED	Isoflupredone	Corticosteroid
BANNED	Isomethadone	Analgesic
BANNED	Isometheptane	Stimulant
BANNED	Isometheptene	Sympathomimetic
BANNED	Isoprenaline (Isoprotorenol)	Bronchodilator
BANNED	Isopropamide	Anticholinergic
BANNED	Isoprotorenol (Isoprenaline)	Bronchodilator
BANNED	Isopyrin (Ramifenazone)	Pain relief
BANNED	Isosorbide dinitrate	Vasodilator
CONTROLLED	Isothipendyl	Antihistamine
BANNED	Isoxicam	Non-steroidal anti-inflammatory drug
CONTROLLED	Isoxsuprine	Vasodilator [Higher screening limit]
BANNED	Isradipine	Calcium channel blocker
BANNED	Kebuzone	Non-steroidal anti-inflammatory drug
CONTROLLED	Ketamine	Anaesthetic
BANNED	Ketazolam	Anxiolytic
CONTROLLED	Ketoprofen	Non-steroidal anti-inflammatory drug
CONTROLLED	Ketorolac	Non-steroidal anti-inflammatory drug
CONTROLLED	Ketotifen	Antihistamine
BANNED	Krypton	Hypoxia Inducible Factor (HIF) Activator <i>(Addition for 2019)</i>
BANNED	Labetalol	Beta blocker
BANNED	Lamotrigine	Anticonvulsant
BANNED	Lenperone	Anxiolytic
BANNED	Leptazole (Pentylentetrazole)	Stimulant
BANNED	Letosteine	Mucolytic
BANNED	Letrozole	Aromatase inhibitor
BANNED	Levallorphan	Opioid antagonist
BANNED	Levobunolol	Beta blocker
CONTROLLED	Levocabastine	Antihistamine
BANNED	Levodopa	Dihydroxythénylalanine substitute

2019 Equine Prohibited Substances List

- Prohibited Substances include any other substance with a similar chemical structure or similar biological effect(s).
- Prohibited Substances that are identified as Specified Substances in the List below should not in any way be considered less important or less dangerous than other Prohibited Substances. Rather, they are simply substances which are more likely to have been ingested by Horses for a purpose other than the enhancement of sport performance, for example, through a contaminated food substance.

CONTROLLED	Levomethadone	Opioid analgesic
BANNED	Levomethorphan	Opioid analgesic
BANNED	Levophacetoperane	Boosts brain uptake of catecholamines
BANNED	Levorphanol	Opioid analgesic
CONTROLLED	Levothyroxine	Hormone
BANNED	LGD-4033	Anabolic (<i>Addition for 2019</i>)
CONTROLLED	Lidocaine	Local anaesthetic
BANNED	Lidoflazine	Anti-arrhythmic
CONTROLLED	Lisinopril	Angiotensin-converting enzyme inhibitor
BANNED	Lithium	Mood stabiliser
BANNED	Lobeline	Respiratory stimulant
BANNED	Lofentanil	Opioid analgesic
BANNED	Lofepamine	Antidepressant
CONTROLLED	Loperamide	Antidiarrhoea
BANNED	Loprazolam	Anxiolytic
CONTROLLED	Loratadine	Antihistamine
BANNED	Lorazepam	Anxiolytic
BANNED	Lormetazepam	Anxiolytic
BANNED	Lornoxicam	Non-steroidal anti-inflammatory drug
BANNED	Losartan	Antihypertensive
BANNED	Loxapine	Antipsychotic
BANNED	Lucanthone	Radiation sensitizer
BANNED	Lumiracoxib	Non-steroidal anti-inflammatory drug
BANNED	Mabuterol	Beta agonist
BANNED	Madol	Anabolic (<i>Addition for 2019</i>)
CONTROLLED	Magnesium sulphate (injection)	Sedative
BANNED	Maprotiline	Antidepressant
BANNED	Mazindol	Anorexic
BANNED	MDA (Methylenedioxyamphetamine)	Stimulant
BANNED	MDEA (Methylenedioxyethylamphetamine)	Stimulant
BANNED	MDMA (Methylenedioxymethamphetamine)	Stimulant
BANNED	Mebanazine	Mono-amine oxidase inhibitor
BANNED	Mebeverine	Antispasmodic
CONTROLLED	Mebhydroline	Antihistamine

2019 Equine Prohibited Substances List

- Prohibited Substances include any other substance with a similar chemical structure or similar biological effect(s).
- Prohibited Substances that are identified as Specified Substances in the List below should not in any way be considered less important or less dangerous than other Prohibited Substances. Rather, they are simply substances which are more likely to have been ingested by Horses for a purpose other than the enhancement of sport performance, for example, through a contaminated food substance.

BANNED	Mebutamate	Sedative
BANNED	Mecamylamine	Nicotine antagonist
CONTROLLED	Meclizine	Antihistamine
CONTROLLED	Meclofenamic acid	Non-steroidal anti-inflammatory drug
BANNED	Meclofenoxate	Stimulant
BANNED	Meconine (<i>Specified Substance</i>)	Opioid
BANNED	Medazepam	Anxiolytic
CONTROLLED	Medetomidine	Sedative (<i>New category for 2019</i>)
CONTROLLED	Medroxyprogesterone	Hormone
CONTROLLED	Medrylamine	Antihistamine
BANNED	Medrysone	Corticosteroid
BANNED	Mefenamic acid	Non-steroidal anti-inflammatory drug
BANNED	Mefenorex	Stimulant
BANNED	Mefexamide	Stimulant
BANNED	Mefruside	Diuretic
BANNED	Meldonium	Antiischaemic
CONTROLLED	Meloxicam	Non-steroidal anti-inflammatory drug
BANNED	Melperone	Antipsychotic
BANNED	Memantine	N-methyl D-aspartate receptor antagonist
BANNED	Meparfynol	Anxiolytic
BANNED	Mepazine	Antipsychotic
BANNED	Mepenzolate	Muscle relaxant
BANNED	Meperidine (Pethidine)	Opioid analgesic
BANNED	Mephenesin	Muscle relaxant
BANNED	Mephentermine	Stimulant
BANNED	Mephenytoin	Anticonvulsant
BANNED	Mephobarbital	Sedative
BANNED	Mepindolol	Beta blocker
CONTROLLED	Mepivacaine	Local anaesthetic
BANNED	Meprednisone	Corticosteroid
BANNED	Meprobamate (Meprobromate)	Anxiolytic
BANNED	Meprobromate (Meprobamate)	Anxiolytic
BANNED	Meprylcaine	Local anaesthetic
BANNED	Meptazinol	Opioid analgesic
CONTROLLED	Mepyramine (Pyrilamine)	Antihistamine

2019 Equine Prohibited Substances List

- Prohibited Substances include any other substance with a similar chemical structure or similar biological effect(s).
- Prohibited Substances that are identified as Specified Substances in the List below should not in any way be considered less important or less dangerous than other Prohibited Substances. Rather, they are simply substances which are more likely to have been ingested by Horses for a purpose other than the enhancement of sport performance, for example, through a contaminated food substance.

BANNED	Meralluride	Diuretic
BANNED	Merbaphen	Diuretic
BANNED	Mercaptomerin	Diuretic
BANNED	Mersalyl	Diuretic
BANNED	Mesalamine (Mesalazine)	Non-steroidal anti-inflammatory drug
BANNED	Mesalazine (Mesalamine)	Non-steroidal anti-inflammatory drug
BANNED	Mesocarb	Stimulant
BANNED	Mesoridazine	Neuroleptic
BANNED	Mestanolone	Anabolic
BANNED	Mesterolone	Anabolic
BANNED	Metaclazepam	Anxiolytic
CONTROLLED	Metamizole (Dipyrone)	Non-steroidal anti-inflammatory drug
BANNED	Metaproterenol	Bronchodilator
BANNED	Metaraminol	Stimulant
BANNED	Metaxalone	Muscle relaxant
BANNED	Metazocine	Opioid analgesic
CONTROLLED	Metformin	Antidiabetic
BANNED	Methacholine	Hypotensive
CONTROLLED	Methadone	Opioid analgesic
BANNED	Methallenestril	Oestrogen
BANNED	Methamphetamine	Stimulant
BANNED	Methandienone	Anabolic
BANNED	Methandriol	Anabolic
BANNED	Methandrostenolone	Anabolic
BANNED	Methantheline	Antimuscarinic
CONTROLLED	Methapyrilene	Antihistamine
BANNED	Methaqualone	Sedative
BANNED	Metharbital	Sedative
BANNED	Methasterone	Anabolic
BANNED	Methazolamide	Diuretic
BANNED	Methcathinone	Psychoactive
CONTROLLED	Methdilazine	Antihistamine
BANNED	Methenolone	Anabolic
BANNED	Methimazole	Antihyperthyroidsim
BANNED	Methixene	Antispasmodic

2019 Equine Prohibited Substances List

- Prohibited Substances include any other substance with a similar chemical structure or similar biological effect(s).
- Prohibited Substances that are identified as Specified Substances in the List below should not in any way be considered less important or less dangerous than other Prohibited Substances. Rather, they are simply substances which are more likely to have been ingested by Horses for a purpose other than the enhancement of sport performance, for example, through a contaminated food substance.

CONTROLLED	Methocarbamol	Muscle relaxant
BANNED	Methohexital	Sedative
BANNED	Methotrexate	Immunomodulator
BANNED	Methotrimeprazine	Antipsychotic
BANNED	Methoxamine	Vasoconstriction
BANNED	Methoxyphenamine	Non-steroidal anti-inflammatory drug
CONTROLLED	Methoxypromazine	Acepromazine Derivative
BANNED	Methscopolamine (Methyl Scopolamine)	Muscarinic antagonist
BANNED	Methsuximide	Anticonvulsant
BANNED	Methyclothiazide	Diuretic
BANNED	Methyl Scopolamine (Methscopolamine)	Muscarinic antagonist
BANNED	Methylaminorex	Stimulant
BANNED	Methylatropine	Anticholinergic
BANNED	Methylchlorthiazide (Methylclothiazide)	Diuretic
BANNED	Methylclothiazide (Methylchlorthiazide)	Diuretic
BANNED	Methyldienolone	Anabolic
BANNED	Methyldihydromorphinone	Opioid analgesic
BANNED	Methyldopa	Antihypertensive
BANNED	Methylenedioxyamphetamine (MDA)	Stimulant
BANNED	Methylenedioxyethylamphetamine (MDEA)	Stimulant
BANNED	Methylenedioxymethamphetamine (MDMA)	Stimulant
BANNED	Methylephedrine	Stimulant
BANNED	Methylergonovine	Vasoconstriction
BANNED	Methylhexaneamine	Stimulant
BANNED	Methylmethcathinone	Psychoactive
BANNED	Methylnortestosterone	Anabolic
BANNED	Methylphenidate	Stimulant
CONTROLLED	Methylprednisolone	Corticosteroid
BANNED	Methylprylon (Methypylon)	Sedative
BANNED	Methylpseudoephedrine	Stimulant
CONTROLLED	Methylsalicylic acid	Non-steroidal anti-inflammatory drug
BANNED	Methyltestosterone	Anabolic

2019 Equine Prohibited Substances List

- Prohibited Substances include any other substance with a similar chemical structure or similar biological effect(s).
- Prohibited Substances that are identified as Specified Substances in the List below should not in any way be considered less important or less dangerous than other Prohibited Substances. Rather, they are simply substances which are more likely to have been ingested by Horses for a purpose other than the enhancement of sport performance, for example, through a contaminated food substance.

BANNED	Methyltrienolone	Anabolic
BANNED	Methypylon (Methylprylon)	Sedative
BANNED	Methysergide	5-hydroxytryptamine receptor antagonist
BANNED	Meticrane	Diuretic
BANNED	Metipranolol	Beta blocker
CONTROLLED	Metoclopramide	Anti-emetic
BANNED	Metocurine	Muscle relaxant
BANNED	Metolazone	Diuretic
BANNED	Metomidate	Hypnotic
BANNED	Metoprolol	Beta blocker
BANNED	Metrenperone	Antipyretic
BANNED	Metyrapone	Hydrocortisone synthesis inhibitor
BANNED	Mexazolam	Anxiolytic
BANNED	Mexiletine	Anti-arrhythmic
BANNED	Mianserin	Psychoactive
BANNED	Mibefradil	Antihypertensive
BANNED	Mibolerone	Anabolic
CONTROLLED	Midazolam	Anxiolytic
BANNED	Midodrine	Vasopressor
BANNED	Milrinone	Phosphodiesterase 3 inhibitor
BANNED	Minoxidil	Vasodilator
BANNED	Mirtazepine	Antidepressant
BANNED	Mivacurium	Muscle relaxant
BANNED	Modafanil	Stimulant
CONTROLLED	Moexipril	Angiotensin-converting enzyme inhibitor
BANNED	Mofebutazone	Non-steroidal anti-inflammatory drug
BANNED	Molidustat	Hypoxia Inducible Factor (HIF) Activator <i>(Addition for 2019)</i>
BANNED	Molindone	Antipsychotic
BANNED	Mometasone	Corticosteroid
BANNED	Montelukast	Leucotriene receptor antagonist - asthma treatment
BANNED	Moperone	Antipsychotic
BANNED	Moprolol	Beta blocker
BANNED	Morphedrine	Stimulant
BANNED	Morpheridine	Opioid analgesic

2019 Equine Prohibited Substances List

- Prohibited Substances include any other substance with a similar chemical structure or similar biological effect(s).
- Prohibited Substances that are identified as Specified Substances in the List below should not in any way be considered less important or less dangerous than other Prohibited Substances. Rather, they are simply substances which are more likely to have been ingested by Horses for a purpose other than the enhancement of sport performance, for example, through a contaminated food substance.

CONTROLLED	Morphine (<i>Specified Substance</i>)	Opioid analgesic
BANNED	Mosapramine	Antipsychotic
BANNED	Moxaverine	Phosphodiesterase inhibition
BANNED	Muscarine (<i>Specified Substance</i>)	Parasympathomimetic
BANNED	Myoinositol tripyrophosphate	Pyrophosphate (<i>Addition for 2019</i>)
BANNED	Nabumetone	Non-steroidal anti-inflammatory drug
BANNED	Nadolol	Beta blocker
BANNED	Nadoxolol	Anti-arrhythmic
BANNED	Naepaine	Local anaesthetic
BANNED	Naftidrofuryl	Vasodilator
BANNED	Nalbuphine	Opioid analgesic
BANNED	Nalorphine	Opioid receptor agonist and antagonist
CONTROLLED	Naloxone	Opioid antagonist
BANNED	Naltrexone	Opioid receptor antagonist
BANNED	Nandrolone (Nortestosterone)	Anabolic
BANNED	Naphazoline	Sympathomimetic
CONTROLLED	Naproxen	Non-steroidal anti-inflammatory drug
BANNED	Naratriptan	5-hydroxytryptamine agonist (migraine treatment)
CONTROLLED	N-butyl Scopolamine	Parasympathetic
BANNED	Nebivolol	Beta blocker
BANNED	Nedocromil	Mast cell stabiliser
BANNED	Nefazodone	Psychoactive
BANNED	Nefopam	Non opioid analgesic
CONTROLLED	Neostigmine	Anticholinesterase
BANNED	Neridronate	Bisphosphonates (<i>Addition for 2019</i>)
BANNED	Nialamide	Antidepressant
BANNED	Nicardipine	Antihypertensive
BANNED	Nicotine	Stimulant
BANNED	Nicoumalone	Anticoagulant
BANNED	Nifedipine	Anti-angina
BANNED	Nifenalol	Beta blocker
BANNED	Niflumic acid	Non-steroidal anti-inflammatory drug
BANNED	Nikethamide	Stimulant
BANNED	Nimesulide	Non-steroidal anti-inflammatory drug

2019 Equine Prohibited Substances List

- Prohibited Substances include any other substance with a similar chemical structure or similar biological effect(s).
- Prohibited Substances that are identified as Specified Substances in the List below should not in any way be considered less important or less dangerous than other Prohibited Substances. Rather, they are simply substances which are more likely to have been ingested by Horses for a purpose other than the enhancement of sport performance, for example, through a contaminated food substance.

BANNED	Nimetazepam	Anxiolytic
BANNED	Nimodipine	Antihypertensive
BANNED	Nitrazepam	Anxiolytic
CONTROLLED	Nitroglycerin	Anti-angina
BANNED	Nomifensine	Dopamine re-uptake inhibitor
BANNED	Nonivamide	Topical analgesic/irritant
BANNED	Norandrostenediol	Anabolic
BANNED	Norandrostenedione	Anabolic
BANNED	Norbolethone	Anabolic
BANNED	Norclostebol	Anabolic
BANNED	Norcocaine	Cocaine metabolite
BANNED	Nordiazepam	Tranquiliser
CONTROLLED	Norepinephrine	Stimulant
BANNED	Norethandrolone	Anabolic
BANNED	Norfenefrine	Stimulant
BANNED	Norfenfluramine	Stimulant
BANNED	Norfluoxetine	Fluoxetine metabolite
BANNED	Normethandrolone	Anabolic
BANNED	Norpseudoephedrine (Cathine)	Stimulant
BANNED	Nortestosterone (Nandrolone)	Anabolic
BANNED	Nortriptyline	Antidepressant
BANNED	Noscapine	Antitussive
BANNED	Nylidrin (Buphenine)	Sympathomimetic
BANNED	Octadecafluoronaphthalene (Perfluorodecalin)	Artificial gas carriers in blood
BANNED	Octopamine	Stimulant
BANNED	Olanzapine	Antipsychotic
BANNED	Olmesartan	Antihypertensive
BANNED	Olodaterol	Bronchodilator <i>(Addition for 2019)</i>
BANNED	Olpadronate	Bisphosphonates <i>(Addition for 2019)</i>
BANNED	Olsalazine	Gut anti-inflammatory
BANNED	Opipramol	Psychoactive
BANNED	Opromazine	Antipsychotics
BANNED	Orciprenaline	Bronchodilator
BANNED	Oripavine (<i>Specified Substance</i>)	Opioid analgesic
CONTROLLED	Orphenadrine	Antihistamine
BANNED	Osterine	Selective Androgen Receptor Modulator

2019 Equine Prohibited Substances List

- Prohibited Substances include any other substance with a similar chemical structure or similar biological effect(s).
- Prohibited Substances that are identified as Specified Substances in the List below should not in any way be considered less important or less dangerous than other Prohibited Substances. Rather, they are simply substances which are more likely to have been ingested by Horses for a purpose other than the enhancement of sport performance, for example, through a contaminated food substance.

BANNED	Oxabolone	Anabolic
BANNED	Oxaflumazine	Psychosedative
BANNED	Oxandrolone	Anabolic
BANNED	Oxaprozin	Non-steroidal anti-inflammatory drug
CONTROLLED	Oxazepam	Anxiolytic
BANNED	Oxazolam	Anxiolytic
BANNED	Oxcarbazepine	Anticonvulsant
BANNED	Oxethazaine	Topical anaesthetic
BANNED	Oxilofrine (Hydroxyephedrine)	Stimulant
BANNED	Oxolamine	Antitussive
BANNED	Oxprenolol	Beta blocker
BANNED	Oxybuprocaine	Local anaesthetic
BANNED	Oxycodone	Opioid analgesic
BANNED	Oxyguno	Anabolic <i>(Addition for 2019)</i>
BANNED	Oxymesterone	Anabolic
BANNED	Oxymetazoline	Topical decongestant
BANNED	Oxymetholone	Anabolic
BANNED	Oxymorphone	Opioid analgesic
BANNED	Oxypertine	Neuroleptic
CONTROLLED	Oxyphenbutazone	Non-steroidal anti-inflammatory drug
BANNED	Oxyphencyclimine	Antimuscarinic
BANNED	Oxyphenonium	Antimuscarinic
CONTROLLED	Oxytocin	Powerful hormone
BANNED	Paliperidone	Antipsychotic
BANNED	Palmitoylethanolamid	Analgesic <i>(Addition for 2019)</i>
BANNED	Pamidronate	Bisphosphonates <i>(Addition for 2019)</i>
BANNED	Pancuronium	Muscle relaxant
BANNED	Papaverine (<i>Specified Substance</i>)	Opiate - muscle spasm treatment
CONTROLLED	Paracetamol (Acetaminophen)	Analgesic <i>(New category for 2019)</i>
BANNED	Paraldehyde	Anticonvulsant
BANNED	Paramethadione	Anabolic
BANNED	Paramethasone	Corticosteroid
CONTROLLED	Paraxanthine (<i>Specified Substance</i>)	Stimulant
BANNED	Pargyline	Mono-amine oxidase inhibitor
BANNED	Paroxetine	Antidepressant
BANNED	Pemoline	Stimulant

2019 Equine Prohibited Substances List

- Prohibited Substances include any other substance with a similar chemical structure or similar biological effect(s).
- Prohibited Substances that are identified as Specified Substances in the List below should not in any way be considered less important or less dangerous than other Prohibited Substances. Rather, they are simply substances which are more likely to have been ingested by Horses for a purpose other than the enhancement of sport performance, for example, through a contaminated food substance.

BANNED	Pempidine	Ganglionic blocker
BANNED	Penbutolol	Beta blocker
BANNED	Penfluridol	Antipsychotic
BANNED	Pentaerythritol Tetranitrate	Vasodilator
BANNED	Pentazocine	Narcotic
BANNED	Pentetrazol	Stimulant
BANNED	Pentifylline	Vasodilator
BANNED	Pentobarbital	Sedative
CONTROLLED	Pentoxifylline	Vasodilator
BANNED	Pentoxyverine (Carbetapentane)	Antitussive
BANNED	Pentylene-tetrazole (Leptazole)	Stimulant
BANNED	Perfluorocarbons	Artificial gas carriers in blood
BANNED	Perfluorodecalin (Octadecafluoronaphthalene)	Artificial gas carriers in blood
BANNED	Perfluorooctylbromide	Artificial gas carriers in blood
BANNED	Perfluorotripropylamine	Artificial gas carriers in blood
CONTROLLED	Pergolide	Dopamine agonist
BANNED	Periciazine (Pericyazine)	Antipsychotic
BANNED	Pericyazine (Pericyazine)	Antipsychotic
CONTROLLED	Perindoprilat	Angiotensin-converting enzyme inhibitor
BANNED	Perinodopril	Antihypertensive
BANNED	Perlazine	Hypnotic
BANNED	Perphenazine	Tranquiliser/phenothiazine derivative
BANNED	Pethidine (Meperidine)	Opioid analgesic
BANNED	Phenacemide	Anticonvulsant
BANNED	Phenacetin (Acetophenetidin)	Analgesic
BANNED	Phenaglycodol	Tranquiliser
BANNED	Phenazocine	Opioid analgesic
BANNED	Phenazone	Analgesic
BANNED	Phenazopyridine	Analgesic
BANNED	Phencyclidine	Anaesthetic
BANNED	Phendimetrazine	Stimulant
BANNED	Phenelzine	Psychoactive
BANNED	Phenethylamine (Fenethylamine, Fenetylamine, Phenethylamine)	Stimulant
BANNED	Phenethylamine (Fenethylamine, Fenetylamine, Phenethylamine)	Stimulant

2019 Equine Prohibited Substances List

- Prohibited Substances include any other substance with a similar chemical structure or similar biological effect(s).
- Prohibited Substances that are identified as Specified Substances in the List below should not in any way be considered less important or less dangerous than other Prohibited Substances. Rather, they are simply substances which are more likely to have been ingested by Horses for a purpose other than the enhancement of sport performance, for example, through a contaminated food substance.

BANNED	Phenibut	Central Nervous System depressant
CONTROLLED	Phenindamine	Antihistamine
BANNED	Phenindione	Anticoagulant
CONTROLLED	Pheniramine	Antihistamine
BANNED	Phenmetrazine	Stimulant
BANNED	Phenobarbital	Sedative
BANNED	Phenoxybenzamine	Antihypertensive
BANNED	Phenprocoumon	Anticoagulant
BANNED	Phenpromethamine	Stimulant
BANNED	Phensuximide	Muscle relaxant
BANNED	Phentermine	Anticonvulsant
BANNED	Phentolamine	Vasodilator
CONTROLLED	Phenylbutazone	Non-steroidal anti-inflammatory drug
CONTROLLED	Phenylephrine	Stimulant
BANNED	Phenyliprazine	Antidepressant
BANNED	Phenylpiracetam (Carphedon)	Stimulant
BANNED	Phenylpropanolamine	Stimulant
CONTROLLED	Phenyltoloxamine	Antihistamine
CONTROLLED	Phenytoin	Anticonvulsant
BANNED	Pholcodine	Antitussive
BANNED	Pholedrine	Stimulant
CONTROLLED	Physostigmine	Pain relief
BANNED	Picrotoxin	Stimulant
BANNED	Piminodine	Opioid analgesic
BANNED	Pimozide	Antipsychotic
BANNED	Pinazepam	Anxiolytic
BANNED	Pindolol	Beta blocker
BANNED	Pipamazine	Anti-emetic/mild tranquiliser
BANNED	Pipamperone	Antipsychotic
BANNED	Pipecuronium	Muscle relaxant
BANNED	Pipenzolate	Antimuscarinic
BANNED	Pipequaline	Anxiolytic
BANNED	Piper Methysticum (kava)	Anti-psychoic
BANNED	Piperacetazine	Sedative
BANNED	Piperidione	Anticholinergic
BANNED	Piperidolate	Anticholinergic

2019 Equine Prohibited Substances List

- Prohibited Substances include any other substance with a similar chemical structure or similar biological effect(s).
- Prohibited Substances that are identified as Specified Substances in the List below should not in any way be considered less important or less dangerous than other Prohibited Substances. Rather, they are simply substances which are more likely to have been ingested by Horses for a purpose other than the enhancement of sport performance, for example, through a contaminated food substance.

BANNED	Piperocaine	Local anaesthetic
BANNED	Piperoxan	Adrenergic blocker
BANNED	Pipotiazine	Antipsychotic
BANNED	Pipradol (Pipradrol)	Stimulant
BANNED	Pipradrol (Pipradol)	Stimulant
BANNED	Piquindone	Antipsychotic
BANNED	Piracetam	Stimulant
CONTROLLED	Pirbuterol	Bronchodilator <i>(New category for 2019)</i>
BANNED	Piretanide	Diuretic
CONTROLLED	Piroxicam	Non-steroidal anti-inflammatory drug
BANNED	Pirprofen	Non-steroidal anti-inflammatory drug
CONTROLLED	Pitcher Plant Extract	Analgesic (putative)
BANNED	Pizotifen	Antimigraine
BANNED	Polythiazide	Diuretic
CONTROLLED	Potassium Bromide	Anti-convulsant
BANNED	Practolol	Beta blocker
CONTROLLED	Pramoxine	Topical anaesthetic
BANNED	Prasterone	Anabolic <i>(Added for 2019)</i>
BANNED	Prazepam	Anxiolytic
CONTROLLED	Prazosin	Antihypertensive
CONTROLLED	Prednisolone	Corticosteroid
CONTROLLED	Prednisone	Corticosteroid
BANNED	Prenylamine	Vasodilator
BANNED	Pridinol	Muscle relaxant
CONTROLLED	Prifinium Bromide	Antispasmodic
CONTROLLED	Prilocaine	Local anaesthetic
BANNED	Primidone	Anticonvulsant
BANNED	Probenecid	Diuretic
CONTROLLED	Procainamide	Anti-arrhythmic <i>(New category for 2019)</i>
CONTROLLED	Procaine	Local anaesthetic
BANNED	Procarbazine	Chemotherapy
BANNED	Procaterol	Beta adrenergic receptor agonist
BANNED	Prochlorperazine	Antipsychotic
BANNED	Procyclidine	Anticholinergic
BANNED	Proglumide	Cholecystokinin antagonist

2019 Equine Prohibited Substances List

- Prohibited Substances include any other substance with a similar chemical structure or similar biological effect(s).
- Prohibited Substances that are identified as Specified Substances in the List below should not in any way be considered less important or less dangerous than other Prohibited Substances. Rather, they are simply substances which are more likely to have been ingested by Horses for a purpose other than the enhancement of sport performance, for example, through a contaminated food substance.

BANNED	Proguanil	Antimalarial
BANNED	Prolintane	Stimulant
CONTROLLED	Promazine	Tranquiliser
CONTROLLED	Promethazine	Antihistamine
BANNED	Pronethalol	Anti-arrhythmic
BANNED	Propafenone	Anti-arrhythmic
BANNED	Propallylonal	Sedative
BANNED	Propanidid	Anaesthetic
CONTROLLED	Propantheline (Propanthelline)	Antimuscarinic
CONTROLLED	Propanthelline (Propanthelline)	Antimuscarinic
BANNED	Proparacaine (Proxymetacaine)	Local anaesthetic
CONTROLLED	Propentofylline	Bronchodilator <i>(New category for 2019)</i>
BANNED	Propiomazine	Tranquiliser
BANNED	Propionylpromazine	Tranquiliser
BANNED	Propiram	Opioid receptor agonist
BANNED	Propofol	IV anaesthetic
BANNED	Propoxycaine	Local anaesthetic
BANNED	Propoxyphene	Opioid analgesic
CONTROLLED	Propranolol	Beta blocker <i>(New category for 2019)</i>
BANNED	Propylhexedrine	Stimulant
BANNED	Propyphenazone	Non-steroidal anti-inflammatory drug
BANNED	Proquazone	Non-steroidal anti-inflammatory drug
BANNED	Prostanozol	Anabolic
BANNED	Prothipendyl	Antipsychotic
BANNED	Protokylol	Sympathomimetic
BANNED	Protriptyline	Stimulant antidepressant
BANNED	Proxibarbital	Sedative
BANNED	Proxymetacaine (Proparacaine)	Local anaesthetic
BANNED	Proxyphylline	Bronchodilator
BANNED	Pseudoephedrine	Stimulant
BANNED	Psilocin	Psychedelic
BANNED	Pyridostigmine	Anticholinesterase
CONTROLLED	Pyrilamine (Mepyramine)	Antihistamine
CONTROLLED	Pyrimethamine	Antimalarial
BANNED	Pyrithyldione	Sedative

2019 Equine Prohibited Substances List

- Prohibited Substances include any other substance with a similar chemical structure or similar biological effect(s).
- Prohibited Substances that are identified as Specified Substances in the List below should not in any way be considered less important or less dangerous than other Prohibited Substances. Rather, they are simply substances which are more likely to have been ingested by Horses for a purpose other than the enhancement of sport performance, for example, through a contaminated food substance.

CONTROLLED	Pyrrobutamine	Antihistamine
BANNED	Quetiapine	Anti-psychotic
BANNED	Quinalbarbital (Secobarbitone)	Sedative
BANNED	Quinbolone	Anabolic
CONTROLLED	Quinethazone	Diuretic
CONTROLLED	Quinidine	Anti-arrhythmic
CONTROLLED	Quinine	Antipyretic
BANNED	Quinisocaine	Topical anaesthetic
BANNED	Ractopamine	Beta agonist
BANNED	RAD140	Anabolic <i>(Addition for 2019)</i>
BANNED	Raloxifene	Oestrogen receptor modulator
BANNED	Ramifenazone (Isopyrin)	Pain relief
BANNED	Remifentanyl	Opioid analgesic
BANNED	Reproterol	Bronchodilator
BANNED	Reserpine	Tranquiliser
BANNED	Rimiterol	Bronchodilator
BANNED	Risedronate	Bisphosphonates <i>(Addition for 2019)</i>
BANNED	Risperidone	Antipsychotic
BANNED	Ritodrine	Tocolytic
BANNED	Rofecoxib	Non-steroidal anti-inflammatory drug
CONTROLLED	Romifidine	Tranquiliser
BANNED	Ropivacaine	Local anaesthetic
BANNED	Roxadustat	Hypoxia Inducible Factor (HIF) Activator <i>(Addition for 2019)</i>
CONTROLLED	Salbutamol (Albuterol)	Bronchodilator
BANNED	Salicylamide	Non-steroidal anti-inflammatory drug
CONTROLLED	Salicylic acid	Non-steroidal anti-inflammatory drug. Threshold substance: 750 micrograms salicylic acid per millilitre in urine, or 6.5 micrograms salicylic acid per millilitre in plasma.
CONTROLLED	Salmeterol	Bronchodilator
BANNED	SARM LGD-4033	Anabolic <i>(Addition for 2019)</i>
BANNED	SARM YK-11	Anabolic <i>(Addition for 2019)</i>
BANNED	SARM S-4	Anabolic <i>(Addition for 2019)</i>
CONTROLLED	Scopolamine (Hyoscine) <i>(Specified Substance)</i>	Parasympathetic
BANNED	Secobarbitone (Quinalbarbital)	Sedative

2019 Equine Prohibited Substances List

- Prohibited Substances include any other substance with a similar chemical structure or similar biological effect(s).
- Prohibited Substances that are identified as Specified Substances in the List below should not in any way be considered less important or less dangerous than other Prohibited Substances. Rather, they are simply substances which are more likely to have been ingested by Horses for a purpose other than the enhancement of sport performance, for example, through a contaminated food substance.

BANNED	Selegiline	Stimulant
BANNED	Sertraline	Antidepressant
BANNED	Sibutramine	Stimulant
BANNED	Sildenafil	Vasodilator
CONTROLLED	Sotalol	Beta blocker
BANNED	Sparteine (<i>Specified Substance</i>)	Anti-arrhythmic
BANNED	Spiroinolactone	Diuretic
BANNED	Stanozolol	Anabolic
BANNED	Stenbolone	Anabolic
BANNED	Strychnine	Muscular convulsions
BANNED	Styramate	Anticonvulsant
BANNED	Sufentanil	Opioid analgesic
BANNED	Sulforidazine	Antipsychotic
BANNED	Sulindac	Non-steroidal anti-inflammatory drug
BANNED	Sulpiride	Antipsychotic
BANNED	Sumatriptan	Serotonin agonist - migraine treatment
CONTROLLED	Suprofen	Analgesic
CONTROLLED	Suxibuzone	Non-steroidal anti-inflammatory drug
BANNED	Synephrine (<i>Specified Substance</i>)	Stimulant
BANNED	Tamoxifen	Oestrogen receptor modulator
BANNED	Temazepam	Tranquiliser
BANNED	Tenoxicam	Pain relief
BANNED	Tepoxalin	Non-steroidal anti-inflammatory drug
BANNED	Terazocin (Terazosin)	Alpha adrenergic blocker
BANNED	Terazosin (Terazocin)	Alpha adrenergic blocker
CONTROLLED	Terbutaline	Bronchodilator (<i>New category for 2019</i>)
CONTROLLED	Terfenadine	Antihistamine
BANNED	Testolactone	Aromatase inhibitor
BANNED	Testosterone	Anabolic. Threshold substance: 0.02 micrograms free and conjugated testosterone per millilitre in urine from geldings, or 0.055 micrograms free and conjugated testosterone per millilitre in urine from fillies and mares (unless in foal).
CONTROLLED	Tetracaine	Local anaesthetic

2019 Equine Prohibited Substances List

- Prohibited Substances include any other substance with a similar chemical structure or similar biological effect(s).
- Prohibited Substances that are identified as Specified Substances in the List below should not in any way be considered less important or less dangerous than other Prohibited Substances. Rather, they are simply substances which are more likely to have been ingested by Horses for a purpose other than the enhancement of sport performance, for example, through a contaminated food substance.

BANNED	Tetrahydrogestrinone (THG)	Anabolic
BANNED	Thebaine (<i>Specified Substance</i>)	Opioid alkaloid
CONTROLLED	Theobromine (<i>Specified Substance</i>)	Vasodilator
CONTROLLED	Theophylline (<i>Specified Substance</i>)	Bronchodilator
BANNED	THG (Tetrahydrogestrinone)	Anabolic
BANNED	Thiethylperazine	Anti-emetic
BANNED	Thiopropazate	Antipsychotic
BANNED	Thiopropazine	Cataleptic
BANNED	Thioridazine	Antipsychotic
BANNED	Thiothixene	Antipsychotic
CONTROLLED	Thonzylamine	Antihistamine
BANNED	Thozalinone	Psychoactive
BANNED	Thymosin (synthetic fragments)	Anabolic
BANNED	Tiaprofenic Acid	Non-steroidal anti-inflammatory drug
BANNED	Tibolone	Anabolic
CONTROLLED	Tiletamine	Anaesthetic
CONTROLLED	Tiludronic acid	Bone metabolism agent
BANNED	Timolol	Beta blocker
CONTROLLED	Tiotropium	Bronchodilator (<i>Addition for 2019</i>)
BANNED	Tocainide	Local anaesthetic
BANNED	Tofenacin	Antidepressant
BANNED	Tolfenamic acid	Non-steroidal anti-inflammatory drug
BANNED	Tolmetin	Non-steroidal anti-inflammatory drug
BANNED	Tolvaptan	Vaptans (<i>Addition for 2019</i>)
BANNED	Tolycaine	Local anaesthetic
BANNED	Torasemide	Diuretic
BANNED	Toremifene	Oestrogen receptor modulator
BANNED	Tramadol	Analgesic
BANNED	Tramazoline	Sympathomimetic
CONTROLLED	Tranexamic acid	Haemostatic
BANNED	Tranylcypromine	Mono-amine oxidase inhibitor
BANNED	Trazodone	Antidepressant
BANNED	Trena	Anabolic (<i>Addition for 2019</i>)
BANNED	Trenbolone	Anabolic
BANNED	Trestolone	Anabolic (<i>Addition for 2019</i>)

2019 Equine Prohibited Substances List

- Prohibited Substances include any other substance with a similar chemical structure or similar biological effect(s).
- Prohibited Substances that are identified as Specified Substances in the List below should not in any way be considered less important or less dangerous than other Prohibited Substances. Rather, they are simply substances which are more likely to have been ingested by Horses for a purpose other than the enhancement of sport performance, for example, through a contaminated food substance.

CONTROLLED	Triamcinolone	Corticosteroid
CONTROLLED	Triamcinolone acetonide	Corticosteroid
CONTROLLED	Triamcinolone hexacetonide	Corticosteroid
BANNED	Triamterene	Diuretic
BANNED	Triazolam	Anxiolytic
CONTROLLED	Trichlormethiazide	Diuretic
BANNED	Triflumeprazine	Phenothiazene
BANNED	Trifluoperazine	Antipsychotic
BANNED	Trifluoromethylphenyl piperazine	Psychoactive
BANNED	Trifluoperidol	Antipsychotic
BANNED	Triflupromazine (Fluopromazine)	Antipsychotic
BANNED	Trihexylphenidyl (Trihexyphenidyl)	Acetylcholine inhibitor
BANNED	Trihexyphenidyl (Trihexylphenidyl)	Acetylcholine inhibitor
BANNED	Trimecaine	Local anaesthetic
BANNED	Trimeprazine	Antipruritic
BANNED	Trimetazidine	Angina treatment
BANNED	Trimipramine	Antidepressant
BANNED	Tripamide	Antihypertensive
CONTROLLED	Tripelennamine	Antihistamine
CONTROLLED	Tripolidine	Antihistamine
CONTROLLED	Trometamol	Diuretic <i>(New category for 2019)</i>
CONTROLLED	Tropicamide	Acetylcholine inhibitor
BANNED	Tuaminoheptane	Stimulant
BANNED	Tulobuterol	Bronchodilator
BANNED	Tybamate	Anxiolytic
BANNED	Valdecoxib	Pain relief
CONTROLLED	Valerenic acid	Tranquiliser
BANNED	Valnoctamide	Sedative
BANNED	Valproate	Anticonvulsant
CONTROLLED	Vanillyl Butyl Ether	Vasodilator and warming agent
BANNED	Vardenafil	Vasodilator
CONTROLLED	Vedaprofen	Non-steroidal anti-inflammatory drug
BANNED	Venlafaxine	Antidepressant
BANNED	Venom – naturally derived and synthetic	Analgesic
BANNED	Verapamil	Anti-arrhythmic
BANNED	Viloxazine	Antidepressant

2019 Equine Prohibited Substances List

- Prohibited Substances include any other substance with a similar chemical structure or similar biological effect(s).
- Prohibited Substances that are identified as Specified Substances in the List below should not in any way be considered less important or less dangerous than other Prohibited Substances. Rather, they are simply substances which are more likely to have been ingested by Horses for a purpose other than the enhancement of sport performance, for example, through a contaminated food substance.

BANNED	Warfarin	Anticoagulant
BANNED	Xenon	Hypoxia Inducible Factor (HIF) Activator <i>(Addition for 2019)</i>
BANNED	Xipamide	Diuretic
CONTROLLED	Xylazine	Sedative
BANNED	Xylometazoline	Adrenergic
CONTROLLED	Yohimbine	Stimulant
BANNED	Zeranol	Oestrogen agonist
BANNED	Zicotinide	Analgesic
BANNED	Zilpaterol	Beta agonist/repartitioning agent
BANNED	Zimeldine	Antidepressant
CONTROLLED	Zolazepam	Anaesthetic
BANNED	Zoledronate	Bisphosphonates <i>(Addition for 2019)</i>
BANNED	Zolpidem	Hypnotic
BANNED	Zomepirac	Non-steroidal anti-inflammatory drug
BANNED	Zopiclone	Hypnotic
BANNED	Zuclopenthixol	Antipsychotic

2019 Equine Prohibited Substances List

- Prohibited Substances include any other substance with a similar chemical structure or similar biological effect(s).
- Prohibited Substances that are identified as Specified Substances in the List below should not in any way be considered less important or less dangerous than other Prohibited Substances. Rather, they are simply substances which are more likely to have been ingested by Horses for a purpose other than the enhancement of sport performance, for example, through a contaminated food substance.

BANNED METHODS

1. Manipulation of Blood and Blood Components (i.e. Blood Doping, ozone haemotherapy)

- Withdrawal, manipulation and re-infusion of homologous, heterologous, or autologous, blood products or blood cells into the circulatory system with the exception of those performed for lifesaving purposes or the use of veterinary regenerative therapies for the treatment of musculoskeletal injury or disease.

2. Gene Doping

- Any form of genetic modification
